

CLX.PayPen II

Enter payment slip data quick and accurately.

Overview

CLX.PayPen II - a professional tool that relieves you of the burden of routine tasks

You know from experience that typing in reference numbers from payment slips by hand requires time and patience. Now you can hand your payment slips over to a professional assistant and concentrate on your online banking.

Your CLX.PayPen II handles it all in a jiffy. Simply swipe it over the code line and your payment slip is captured. Quickly, reliably and accurately. And of course, the entered payment data is immediately available to your payment program.

Key features at a glance

- Captures data from Swiss payment slips quickly and accurately
- Scans payment data directly into your payment program or online banking
- Also scans text and barcodes
- High scan rate
- Small, handy and visually attractive
- Suitable for use with either hand – scans in both directions
- Powered over the USB cable
- Full 2-year warranty
- Compatibility / System Requirements: Windows 7 / Windows 8 (32/64 bit) or OS X from version 10.7 (Lion)

Important: The CLX.PayPen II is currently not compatible with [CLX.Sentinel](#), our reliable token for online banking.

Product Details

Save time and avoid stress

The CLX.PayPen II fits modestly in your hand, but its performance is enormous. It reads all Swiss payment slips with a simple swipe over the code line, quickly, reliably and accurately, while its clever design and extra intelligence enables it to do even more. See for yourself.
