ALIVE WITH COLOUR

OKI Original Consumables

5 Reasons why OKI Original Consumables gives you the best value for money.

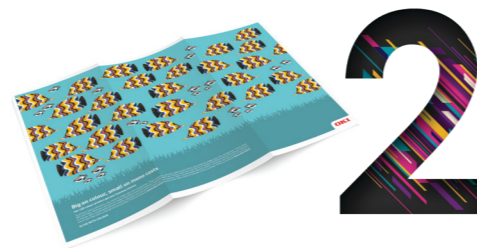

Big on colour, small on mono costs

With OKI's LED colour range for the office, it will never cost you more to print mono pages on an OKI colour device than on a standard mono printer. So you can keep printing your black and white documents and colour is available when you want to stand out. We believe that every business deserves great graphics, reliable printing and flexible media capability.

Always the best quality

Using OKI's Original Consumables with OKI's hardware guarantees quality for every print. Third party products aren't designed specifically for OKI's devices, so they can't guarantee the stunning print quality, low cost and reliability you enjoy with OKI's Original Consumables.

Warranty

To give you complete peace of mind, OKI's hardware comes with a three-year warranty as standard on registration of your device within 30 days of purchase, and providing you continue to use OKI Original Consumables.

Helpful advice when you need it

If you're ever unsure about OKI's products, our dedicated Customer Service Desk and friendly, professional staff are always on hand to help you with any queries you may have. However, we can only provide support for OKI Original Consumables.

Guaranteed toner yields

OKI uses ISO-approved testing methods to accurately determine the declared yield for our original toner cartridges. That means you always get the number of pages promised from your OKI Original Consumables.

Protect your business

OKI Original Consumables are specifically designed and crafted to fit your device perfectly. This precision matching is why only OKI Original Consumables offer guaranteed reliability and print quality.

Keypoint Intelligence Buyers Lab, an industry-leading independent research analyst and testing firm, compared the performance, image quality, reliability and yields of genuine OKI Original Consumables versus three third-party compatible cartridges.*

BLI tested OKI Original Consumables and third-party products used in OKI devices and found the following benefits of OKI Original Consumables:

Better print yields

Higher quality print

Consistent colour and quality

No delivery spillage

No damage to devices

*Visit your local OKI website for further information on BLI Testing.

How to check if your consumables are OKI Original

1) Look for the hologram

You can always tell if a product is an OKI Original Consumable by looking for the hologram on the packaging and making sure you can see numbers 18 and 81 in the holographic 'window'.

2) Check the serial number

Every OKI Original Consumable has a unique serial number. Visit the OKI website for the authentication tool.

Business Printing Specialists

OKI is a global business-to-business brand dedicated to creating cost effective, professional in-house printing solutions which are designed to increase the efficiency of today's and tomorrow's businesses and their workflows. As pioneers in innovative print technologies from digital LED to High Definition Colour, we have a portfolio of award winning A3 and A4 colour and mono printers and MFPs, for workgroups and businesses of all sizes. This combined with our solutions enables businesses to achieve both image focused, vibrant, professional quality print communications and budget flexibility.

OKI's portfolio also includes precision-engineered large-format printing systems specifically designed for the sign, graphics, CAD and GIS markets that provide industry-leading productivity and image quality. In addition, our POS and dot matrix printers complete our range of printing solution.

Considering the Environment

OKI is committed to its role as a responsible partner for all its stakeholders: Shareholders, business partners, end-users, local communities and employees.

As part of the OKI Group's Charter of Corporate Conduct, OKI continually reviews its efforts to provide environmentally sound solutions to its customers:

- OKI products are designed and manufactured with reducing the impact on the environment in mind.
- Increasing the amount of our hardware products and consumables that are recycled is one of our strategic objectives.
- We feel responsible for conducting our business in an environmentally sound manner, contributing to conservation and activities within our local communities.

OKI's Green Leaf symbol, found on all products and packaging, represents our total commitment to collection, recycling and environmental processes.

3 Year Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests.

We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years – for free! Simply register your product within 30 days of purchase to be eligible for our unique all inclusive offer. Fully covered by OKI! For further information please visit your local website.

20 years of LED Technology

OKI pioneered the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents. Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy. LED print heads have no moving parts, making our LED printers robust and ultra reliable.

High Definition Colour

High Definition Colour is OKI's own unique collection of market-defining hardware and software technologies. Together, these components deliver unsurpassed colour printing – simply, intelligently, perfectly.

We pioneered Single-pass Flat Paper Path technology to bring you fast affordable colour printing. In consumables, we created a special Microfine High Definition Toner to ensure your documents are printed in superior quality.

We championed digital LED printing technology: our High Definition LED printheads have no moving parts and deliver pin sharp images.

The combination of the range of media and software solutions we offer means you have much more control of what you want to print, when you want to print – without leaving the office.
