# WHO ARE WE

Polyco Healthline combines the 85 years' expertise of two leading businesses, who provide protection and hygiene products and services in the workplace and home.

Our wide range and quality products, including reusable and disposable gloves, workwear and bags, is trusted and used by multiple sectors throughout UK and overseas.

From our state-of-the-art warehouse and laboratory testing facility in Lincolnshire, our expert teams drive research & development and maintain logistics and customer service levels to ensure just-in-time supply.

Designing, sourcing, licensing and selling products, we optimise every step across the global supply chain. We innovate in partnership with commercially-minded businesses to overcome their biggest challenges to ensure a more compliant and safer environment .

Together, we will ensure we stay Safe and Clean.

## An Extensive Range of Products All Under One Roof

From gloves to bags, workwear to paper, pulp to cotton – the breadth and quality of our product range is hard to find anywhere else.

And by constantly innovating new hygiene and protection solutions, Polyco Healthline is leading the way in glove dispensing technology and new safety solutions.

With so many products now available, you can cut down on the number of suppliers and trust us to deliver more of your inventory, through our robust logistics network.

### By consolidating your purchasing with Polyco Healthline, you will benefit from:

- ✓ Access to technical product experts who will listen to your commercial challenges and build a protection solution tailored to you.
- ✓ Fastidious quality control enhanced by our in-house UK laboratory and our Far Eastern QA team. Together they ensure end-to-end accreditation and standards compliance.
- ✓ Quantifiable resource and time savings by reducing the number of suppliers you deal with each week.
- ✓ Deeper relationships with a dedicated account expert and your very own customer service 'buddy' who understands your business.
- ✓ Quality products sourced from manufacturing partners with the most reliable production track records.

## Operational Excellence

Consistent and reliable supply means everything to you. So, we'll always aim for a speedy 48 to 72-hour turnaround on your order.

But sometimes supply chain complexities present problems beyond our control. It's at these times that your business relies on proactive account management, regular updates and the highest levels of accountability.

If you need support, you can speak to one of our friendly customer service agents. Partnered with your account manager, they will inform you of your order status and, if necessary, provide daily back order updates. Beyond their own extensive product knowledge, our agents also have an open communication channel to our industry experts who can offer more technical advice.

In short, we are there when you need us.

## Expert Eye

If you need specialist advice, wouldn't it be great to easily contact an expert in their field? We thought so.

Now you can access the knowledge your customers or workforce need, and ultimately make your world and that of your customers, safer and cleaner.

We've assigned ten experts from within the Polyco Healthline family to be there for you. Product developers, compliance gurus and sector specialists – together their expertise is unrivalled.

Read more and find their contact details on our website:  
<https://www.polycohealthline.com/services/experts/>

## Technical Excellence

It's rare for providers to offer a state-of-the-art laboratory and testing facility as part of their service. Polyco Healthline does, and it underpins our product development and your customers' health and safety.

In our laboratory, we work alongside some of the freshest minds in the UK and abroad – from universities to research bodies. We test out new ideas based on customer insight, learn what works best and then apply our learning to multiply our products' benefits.

And rather than waiting on a third-party provider, our UKAS accredited laboratory can perform compliance testing to streamline product development and aid with benchmarking – saving time and money.

## Health & Safety Training and Audits

We're passionate about Health and Safety. And we love to share our knowledge to help you do your job.

Our training and audits are the best ways to up-skill, learn more about protecting against risks and get insight into which products are right for your customers. Our training includes:

### 1. Toolbox Talks

PPE only protects when your workers wear it. To encourage staff to do just that our expert sales team is always happy to help.

Our low-key, engaging and informative 20-minute talks are a great way to explain PPE to your workforce. Teaching anything from cut resistance to infection control, our sales team are flexible. And they can host anything from a 'bells-and-whistles' presentation in the break room to an informative demo on the factory floor.

### 2. Hand Protection Assessment Survey

As part of our value-added service, our audit helps you decide which products will best safeguard the end user employees and support health & safety objectives. Using our detailed reporting process, our glove-industry experts will assess your risks, identify potential savings and advise on injury claims avoidance. At the end, you'll receive a sample of recommended products to trial.

## Our programme

#phAMBITION is Polyco Healthline's new sustainability programme. It aims to build upon our sustainability successes so far and set new targets and goals whilst unlocking the power of change. Our programme is aimed at addressing the social and environmental challenges of the next decade with commitments to improve the lives and wellbeing of our people with the smallest environmental footprint.

We have considered the United Nations Sustainable Development Goals (SDGs) against our value chain to better understand risks and opportunities and drive positive change. That is why our strategy is focused on addressing key sustainability impacts and opportunities throughout our value chain.

We are focusing on the importance of a holistic approach to sustainability development and improving wellbeing. At Polyco Healthline, we are continuously looking for global trends fuelling a regenerative approach to protect our People and Planet building circular inclusive value chain, with positive choices.

phAMBITION is Polyco Healthline's journey towards a sustainable future which supports a healthy, thriving world and promotes well-being for us all, for generations to come.

This is a fundamental transformation of what we do, to create growth and shared value whilst keeping sustainability at our core.

We have structured our ambitions into '5 R's'. These will form the cornerstone of our sustainability programme.

Our 2030 agenda represents a fundamental shift in thinking, recognising the interconnected imperative of a prosperous business, a thriving society, and a healthy environment. We are driving sustainable profit via triple-bottom-line, encompassing people, planet, and product leading transformation change goals for 2030.

## What are we doing about it at a corporate level?

Polyco Healthline is united in our approach to environmental sustainability.

For us, the challenge of sustainable transformation is balancing the need to keep our business in motion while making changes to reach our sustainability ambitions.

We understand the tough realities of our sector and that becoming sustainable doesn't happen overnight. It takes many smaller steps, sometimes challenging and some into the unknown, to really take sustainability to the next level and beyond. We are committed to building for a more sustainable future - together with internal and external stakeholders.

Our first step has been to identify the areas where we need to make the most changes to reduce our carbon footprint. Our pursuit of zero waste, say 'No' to unnecessary plastics and Energy efficiency stems from this.

On a site level, our Bourne distribution centres use 670m<sup>2</sup> of clear roof panelling optimising daylight and motion sensor energy efficient LED lighting to reduce energy usage.

We produce renewable energy on site with solar panels and are energy usage compliant with ISO 14001.

Every pallet we use is recycled through recovery and repair, and all cardboard and plastic waste on site is collected and recycled where possible.

Our car parks are fitted with charging points, and our company car fleet is being electrified.

You can find more information on our website:  
<https://www.polycohealthline.com/sustainability/>

## Why are we so focused on Sustainability?

Under our phAMBITION program, here at Polyco Healthline we are committed to making the world a safer and cleaner place. Both now and in years to come.

In 2019, a report from the Organisation for Economic Co-Operation and Development (OECD) found that only 9% of all plastic produced globally was recycled. (<https://www.oecd.org/environment/plastics/plastics-lifecycle-is-far-from-circular.htm>)

But what does that really mean? Each year an estimated 11 million tonnes of plastic enter the world's oceans, according to a recent report by the United Nations Environment Programme (UNEP). (<https://www.unep.org/interactive/pollution-to-solution/>)

And how does that affect us? A study has shown that we may be consuming 39,000 to 52,000 microplastic particles a year. Importantly the study shows that we consume these via multiple channels and that avoiding consuming plastic in our diet is very difficult, 'if not impossible'. This has led us to review our product packaging strategy. (<https://www.nationalgeographic.co.uk/environment/2019/06/you-eat-thousands-bits-plastic-every-year>)

## What are we doing about it at a product level?

Product level environmentally friendly solutions for industrial gloves pose the biggest challenge to us as a manufacturer. Because we design products for performance, longevity and comfort, materials are often blended and combined - making it harder to offer solutions.

However, thanks to our market leading R&D program, we have been the first to bring to market industrial gloves made in part from recycled plastic bottles (Recycled Polyethylene Terephthalate or RPET for short). Many textile raw materials are plastic based; polyester & nylon are widely used for example. By using RPET instead, we are reducing our reliance on virgin polyester.

At present we have this technology in two general handling gloves, a thermal glove and two cut resistant glove options – But keep an eye on our social media for updates and new launches.

Across the wider business we have compostable gloves, compostable car seat covers and dissolvable screen wash tablets that save plastic.

## What are we doing about it at a sourcing level?

We work actively with our supply partners abroad to implement environmentally sustainable initiatives. These are chosen to reduce impact wherever possible. Whether it is powering factories with renewable energy sources, or recycling DMF chemicals in the production of polyurethane coatings, environmental sustainability plays a leading role in decision making.

Our Polyflex Eco manufacturing partner alone recycles 120,000 tonnes of water annually, whilst using solar panels for power, and transporting workers by electric buses.

## What are we doing about it at a packaging level?

We've embarked on the largest packaging review in the history of our reusable gloves. Our Environmental, Social and Governance pledge is to reduce 40 tonnes of single use plastic packaging from our product offering. We have now started to introduce paper band packaging for both primary and secondary packaging. We have removed over 8 tonnes of plastic packaging from our product range so far. Our journey continues and we are aspiring to achieve so much more!

Aware of knee-jerk reactions to environmental issues, we were careful when designing our paper band packaging to reduce the total packaging weight from the plastic packing currently used. By incorporating the user information within the design, we negate the need for an additional paper technical information sheet to be sent.

In April 2022, the UK government brought the Plastic Packaging Tax (PPT) into force. The tax is levied at a rate of £200/tonne on all plastic packaging manufactured in or imported into the UK with less than 30% recycled content. We understand that not all of our products are acceptable in paper bands, and for those that must remain in plastic, where possible we will be using at least 30% recycled content.

## GL890

Blue nitrile powder free disposable glove

### Features

**Strength:** Synthetic rubber offers better puncture and abrasion resistance than natural rubber or vinyl

**Comfort:** Soft elastic material feels cooler and is more comfortable and flexible to wear

**Food Contact:** Tested in accordance with European standard EN1186 making it suitable for food contact

**Powder Free:** Reduces risk of product contamination

**Grip:** Textured fingertips for improved grip

### Sectors:

- Automotive • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL890
Colour	Blue
Sizes	S-XXL

## GL897

Black nitrile powder free disposable glove

### Features

**Strength:** Synthetic rubber offers better puncture and abrasion resistance than natural rubber or vinyl

**Comfort:** Soft elastic material feels cooler and is more comfortable and flexible to wear

**Powder Free:** Reduces the risk of product contamination

**Grip:** Textured fingertips for improved grip

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Janitorial • Medical, Vet, Dental, Pharmaceutical • Hair and Beauty

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL897
Colour	Black
Sizes	S-XL

## GL895

Blue nitrile powder free disposable glove

### Features

Protects against contamination, dirt and potential irritants in low risk situations

Powder free, reducing the risk of product contamination

Textured fingertips for extra grip

AQL 4.0

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Janitorial • Hair and Beauty

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL895
Colour	Blue
Sizes	S-XL

# Finite® Orange Grip

Orange nitrile powder free disposable glove

## Features

Versatile: Thicker than a standard disposable, it offers the choice of use as a heavy duty disposable glove or a lightweight re-usable glove

Grip Pattern: Features a diamond grip pattern over the entire glove which optimises surface performance and ensures an exceptional grip

Strength: Superior strength nitrile formulation provides exceptional resistance to tears and punctures even in the toughest environments

Sensitive Skin: No latex proteins - eliminates protein sensitisation

## Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing
- Janitorial • Oil and Gas • Warehousing, Transport and Logistics • Waste Management and Local authority

## Packing

100 gloves per dispenser / 10 dispensers per case (S-M)

90 gloves per dispenser / 10 dispensers per case (L-XL)

Code	GL201
Colour	Orange
Sizes	S-XL

# Finite® Black

Black nitrile powder free disposable glove

## Features

Versatile: Thicker than a standard disposable, it offers the choice of use as a heavy duty disposable glove or a lightweight re-usable glove

Grip Pattern: Features a diamond grip pattern over the entire glove which optimises surface performance and ensures an exceptional grip

Strength: Superior strength nitrile formulation provides exceptional resistance to tears and punctures even in the toughest environments

Sensitive Skin: No latex proteins - eliminates protein sensitisation

## Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing
- Janitorial • Oil and Gas • Warehousing, Transport and Logistics • Waste Management and Local authority

## Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL100
Colour	Black
Sizes	S-XL

# GD19

Blue nitrile powder free disposable glove

Disposable Gloves

Nitrile Disposables

### Features

- Manufactured from: Nitrile butadiene
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Low in residual chemicals: To reduce the risk of contact dermatitis associated with these chemicals
- Flexible material: For improved feel and fit reducing fatigue during extended wear
- Strength: Offers better puncture, tear and abrasion resistance than natural rubber or vinyl
- Powder free: Reduces the risk of dust contamination
- Textured finish: For improved grip

### Sectors:

- Automotive • Construction & Utility • Janitorial • Oil and Gas • Waste Management and Local authority

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GD19
Colour	Blue
Sizes	S-XL

# GL891

Blue nitrile powder free disposable glove with a long cuff

### Features

- Sensitive Skin: No latex proteins - eliminates protein sensitisation
- Comfort: Soft elastic material feels cooler and is more comfortable and flexible to wear
- Powder Free: Reduces risk of product contamination
- Grip: Textured fingertips for improved grip
- Long Cuff: 30cm cuff for extra protection

### Sectors:

- Automotive • Engineering and Manufacturing
- Medical, Vet, Dental, Pharmaceutical

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL891
Colour	Blue
Sizes	S-XL

# Finite® PF

Blue nitrile powder free disposable glove

### Features

- Strength: Synthetic rubber offers better puncture and abrasion resistance than natural rubber or vinyl
- Comfort: Soft elastic material feels cooler and is more comfortable and flexible to wear
- Sensitive Skin: No latex proteins – eliminates protein sensitisation
- Powder Free: Low particle count reduces risk of product contamination
- Grip: Textured fingertips for improved grip

### Sectors:

- Automotive • Engineering and Manufacturing • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	FN100
Colour	Blue
Sizes	S-XXL

# GN99

Blue nitrile powder free 9 newton disposable glove

### Features

- Manufactured from: Specially formulated nitrile butadiene polymer
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Low in residual chemicals: To reduce the risk of contact dermatitis associated with these chemicals
- Flexible material: For improved feel and fit reducing fatigue during extended wear
- Strength: Offers better puncture, tear and abrasion resistance than natural rubber or vinyl
- Powder free: Reduces the risk of dust contamination
- Versatile: Thicker than a standard disposable

### Sectors:

- Automotive • Engineering and Manufacturing • Janitorial • Medical, Vet, Dental, Pharmaceutical • Waste Management and Local authority

### Packing

10 gloves per dispenser / 10 dispensers per case

Code	GN99
Colour	Blue
Sizes	S-XL

# Finite® HD

Blue nitrile powder free disposable glove

### Features

- Versatile: Thicker than a standard disposable, it offers the choice of use as a heavy duty disposable glove or a lightweight re-usable glove
- Strength: The unique nitrile formulation maintains a tensile strength that is able to withstand the rigours of continuous use, and yet is soft, pliable and sensitive enough for use as a disposable
- Grip: Textured fingertips provide an improved grip and optimise surface performance in both wet and dry conditions
- Food Contact: Tested in accordance with European standard EN1186 making it suitable for food contact
- Powder Free: Minimises particulate contamination where product protection is of paramount importance
- Sensitive Skin: No latex proteins - eliminates protein sensitisation
- Long Cuff: 30cm cuff for extra protection

### Sectors:

- Automotive • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Oil and Gas • Waste Management and Local authority

### Packing

50 gloves per dispenser / 10 dispensers per case

Code	FHD50
Colour	Blue
Sizes	S-XL

# Finite® Green

Green nitrile powder free disposable glove

### Features

**Strength:** Synthetic rubber offers better puncture and abrasion resistance than natural rubber or vinyl

**Grip:** Textured fingertips for improved grip

**Comfort:** Soft elastic material feels cooler and is more comfortable and flexible to wear

**Food Contact:** Tested in accordance with European standard EN1186 making it suitable for food contact

**Sensitive Skin:** No latex proteins – eliminates protein sensitisation

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing
- Food Manufacturing and Prep • Janitorial • Oil and Gas • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	FNG100
Colour	Green
Sizes	S-XXL

# Finite® Indigo AF

Purple nitrile powder free examination glove

### Features

**Comfort:** Advanced nitrile technology provides an exceptionally soft and pliable material

**Sensitive Skin:** No latex proteins – eliminates protein skin sensitisation

**Accelerator Free:** Removing the risk of contact dermatitis caused by these chemicals

**Fit:** Unique shape delivers a glove with improved fit

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Janitorial • Oil and Gas

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	MFNP100
Colour	Purple
Sizes	XS-XL

# GN70

Blue hybrid powder free examination glove

### Features

**Manufactured from:** A blend of Polyvinyl Chloride and Acrylonitrile butadiene

**Latex free:** reducing the risk of hypersensitivity and allergic reactions

**Low in residual chemicals:** To reduce the risk of contact dermatitis associated with these chemicals

**Flexible material:** For improved feel and fit reducing fatigue during extended wear

**Hybrid:** Latest technology combining strength of two materials

**Powder free:** Reduces the risk of dust contamination

**Accelerator Free:** Removing the risk of contact dermatitis caused by these chemicals

### Sectors:

- Automotive • Engineering and Manufacturing • Janitorial • Medical, Vet and Dental

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GN70
Colour	Blue
Sizes	S-XL

## GL888

Natural latex powder free disposable glove

### Features

- Manufactured from: Natural rubber latex
- Flexible material: Provides maximum dexterity, sensitivity and comfort
- Protection: against contamination, dirt and potential irritants in low risk situations
- Powder free, reducing the risk of product contamination
- Textured finish for improved grip
- AQL 4.0

### Sectors:

- Automotive • Construction & Utility

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL888
Colour	Natural
Sizes	S-XL

## GL818

White latex powdered disposable glove

### Features

- Manufactured from: Natural rubber latex
- Flexible material: Provides maximum dexterity, sensitivity and comfort
- Protection: against contamination, dirt and potential irritants in low risk situations
- Lightly powdered for easy donning and sweat absorption
- Textured finish for improved grip
- AQL 4.0

### Sectors:

- Automotive • Construction & Utility

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GL818
Colour	White
Sizes	S-XL

## GD05

Natural latex powder free disposable glove

### Features

- Manufactured from: Natural rubber latex
- Flexible material: For improved feel and fit reducing fatigue during extended wear
- Chlorinated: To reduce latex protein content
- Powder free: Reduces the risk of dust contamination
- Textured finish: For improved grip

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Janitorial • Hair and Beauty

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GD05
Colour	Natural
Sizes	XS-XL

# GD09

## Clear vinyl powder free disposable glove

### Features

- Manufactured from: PVC plastisol
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Powder Free: Reduces the risk of product contamination
- Smooth finish
- Food Contact: Tested in accordance with European standard EN1186 making it suitable for food contact

### Sectors:

- Engineering and Manufacturing • Food Manufacturing and Preparation • Janitorial • Hair and Beauty

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GD09
Colour	Clear
Sizes	S-XL

# GD13

## Blue vinyl powder free disposable glove

### Features

- Manufactured from: PVC plastisol
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Powder Free: Reduces the risk of product contamination
- Smooth finish
- Blue glove: Offering traceability for the food industry
- Food Contact: Tested in accordance with European standard EN1186 making it suitable for food contact

### Sectors:

- Food Manufacturing and Preparation • Janitorial

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GD13
Colour	Blue
Sizes	S-XL

# GD47

## Clear vinyl powdered disposable glove

### Features

- Manufactured from: PVC plastisol
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Powdered: To ease donning and absorb perspiration
- Smooth finish
- Food Contact: Tested in accordance with European standard EN1186 making it suitable for food contact

### Sectors:

- Food Manufacturing and Preparation • Janitorial • Hair and Beauty

### Packing

100 gloves per dispenser / 10 dispensers per case

Code	GD47
Colour	Clear
Sizes	S-XL

## GD52

Clear polythene disposable glove, smooth

### Features

- Manufactured from: Polythene
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Flexible material: For improved feel and fit reducing fatigue during extended wear
- Bagged: For easy dispensing
- Powder free: Reduces the risk of dust contamination
- Smooth finish

### Sectors:

- Automotive • Janitorial • Hair and Beauty

### Packing

100 gloves per dispenser / 100 dispensers per case

Code	GD52
Colour	Clear
Sizes	S-L

## GD55

Clear polythene disposable glove, embossed

### Features

- Manufactured from: Polythene
- Latex free: reducing the risk of hypersensitivity and allergic reactions
- Flexible material: For improved feel and fit reducing fatigue during extended wear
- Low in residual chemicals: To reduce the risk of contact dermatitis associated with these chemicals
- Powder free: Reduces the risk of dust contamination
- Textured finish: For improved grip

### Sectors:

- Automotive • Food Manufacturing and Prep • Janitorial • Hair and Beauty

### Packing

100 gloves per dispenser / 100 dispensers per case

Code	GD55
Colour	Clear
Sizes	M-L

## Reusable Gloves

*As category leaders, we are committed to providing the best hand protection and finding cost-effective solutions for our customers. Our ultimate goal is to drive innovation through insight and offer the highest quality that enables you to work better, faster and safer.*

## Polyflex® Eco N

Seamless knitted liner made in part from recycled plastics, with a foamed nitrile coating

### Features

**Environmentally Conscious:** 25% of the total glove weight is made from recycled plastic (rPET), cutting down our reliance on virgin materials like oil based polyester

**Unmatched comfort:** Polyflex® Eco N sets a new standard for comfort and dexterity in the industry

**Durable:** Achieves maximum score for abrasion as defined in EN388:20016 helping to reduce waste created by premature discarding from early wear and tear

**Widest range of sizing:** Polyflex® Eco N is available from size 5 through to size 12 to ensure wearers of all sizes are protected, from XXS to XXXL

**Packaged plastic free:** Polyflex® Eco N is packed without the use of plastic, reducing the overall weight of packaging

**Knit Wrist:** Elasticated Knit wrist ensures a secure fit and keeps hands free from dust and debris

**SilverClear®** glove formulated from silver, a powerful and proven antimicrobial agent that inhibits bacterial, fungal and viral growth

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Warehousing, Transport and Logistics • Waste Management and Local authority

Code	PEN
Colour	Blue/Black
Sizes	5-12

### Packing

10 pairs per bundle band / 60 pairs per case

## Polyflex® Eco L

Seamless knitted liner made in part from recycled plastics, with a sandy latex coating

### Features

**Environmentally Conscious:** 25% of the total glove weight is made from recycled plastic (rPET), cutting down our reliance on virgin materials like oil based polyester

**Unmatched comfort:** Polyflex® Eco L sets a new standard for comfort and dexterity in the industry

**Grip:** The sandy latex coating has been specifically developed to resist abrasion, whilst maintaining superior grip and dexterity

**Widest range of sizing:** Polyflex® Eco L is available from size 5 through to size 12 to ensure wearers of all sizes are protected, from XXS to XXXL

**Packaged plastic free:** Polyflex® Eco L is packed without the use of plastic, reducing the overall weight of packaging

**Knit Wrist:** Elasticated Knit wrist ensures a secure fit and keeps hands free from dust and debris

**SilverClear®** glove formulated from silver, a powerful and proven antimicrobial agent that inhibits bacterial, fungal and viral growth

### Sectors:

Code	PEL
Colour	Green/Blue
Sizes	5-12

### Packing

10 pairs per bundle band / 60 pairs per case

# Polyflex® Eco Cut

Hydrophobic treated seamless knitted cut resistant liner, with foamed nitrile palm, touch sensitive fingertips and made in part from recycled plastic bottles

## Features

**Environmentally Conscious:** 18% of the total glove weight is made from recycled plastic (rPET), cutting down our reliance on virgin materials like oil based polyester

**18 gauge cut level F:** Ultra-lightweight 18-gauge liner achieves the maximum achievable levels of cut resistance according to EN388:2016, and excellent abrasion and tear resistance

**Touch Sensitive:** Tactile touch sensitive fingertips enable the wearer to use touch screen machinery or devices with precision and without the need to remove the glove

**Contact Heat Level 1:** Heat resistant to contact heat level 1 to broaden real world application suitability

**Reinforced Thumb Crotch:** Flat nitrile reinforcement between the thumb and forefinger for additional protection in an area that is highly susceptible to wear and tear

**Packaged plastic free:** Polyflex® Eco Cut is packed without the use of plastic; reducing the overall weight of packaging

**Water Repellent:** The Hydrophobic solution; allows for comprehensive and robust 3-Dimensional water-resistant performance whilst maintaining maximum breathability

**SilverClear®** glove formulated from silver, a powerful and proven antimicrobial agent that inhibits bacterial, fungal and viral growth

# Polyflex® Eco Therm

Thermal lined, seamless knitted liner made in part from recycled plastics, with a sandy latex coating

## Features

**Environmentally Conscious:** 25% of the total glove weight is made from recycled plastic (rPET), cutting down our reliance on virgin materials like oil based polyester

**Warm:** Soft knitted thermal lining keeps hands exceptionally warm

**Grip:** The sandy latex coating has been specifically developed to resist abrasion, whilst maintaining superior grip and outstanding comfort and dexterity

**Packaged plastic free:** Polyflex® Eco Therm is packed without the use of plastic, reducing the overall weight of packaging.

**Cut resistant:** To ensure use in the widest range of sectors Polyflex® Eco Therm has been engineered to score a cut 3 against EN388 2016

**Hot and Cold Contact** Polyflex® Eco Therm has been engineered to protect against handling hot and cold objects

## Sectors:

- Construction & Utility • Engineering and Manufacturing • Warehousing, Transport and Logistics
- Waste Management and Local authority

Code	PETH
Colour	Orange/Black
Sizes	7-11

## Packing

6 pairs per bundle band / 60 pairs per case

# Polyflex® Ultra

Seamless knitted nylon liner with foamed palm coating made from a blend of polyurethane and nitrile

Reusable Gloves

General Handling

### Features

**Grip:** The foamed coating utilises a blend of polyurethane and nitrile increasing resistance to oils and maximising grip, especially in wet and oily conditions

**Durable:** Combines the resilient and hard-wearing properties of polyurethane with the strength of nitrile to deliver excellent abrasion protection, durability and a long life expectancy

**Comfort:** The soft seamless knitted nylon liner and highly flexible coating ensures ultimate comfort and allows for long periods of wear without any signs of hand fatigue

**Knit Wrist:** Elasticated knit wrist ensures a secure fit and keeps hands free from dust and debris

**SilverClear®** glove formulated from silver, a powerful and proven antimicrobial agent that inhibits bacterial, fungal and viral growth. The additive will protect the gloves from microbial growth but also from mould and bad odours avoiding premature material degradation and discolouration

### Sectors:

• Automotive • Construction & Utility • Engineering and Manufacturing • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

10 pairs per bundle band / 60 pairs per case

Code	911
Colour	Red/Black
Sizes	6-11

# Polyflex® Grip

Seamless nylon glove with foamed nitrile dotted palm coating glove

### Features

**Grip:** The foamed nitrile coating channels oils and liquids away from the surface, ensuring superb wet grip

**Nitrile Dots:** Nitrile dots on the palm coating provides extra wet and dry grip

**Durable:** Coating offers outstanding abrasion resistance for longevity and durability

**Comfort:** The seamless knitted nylon liner offers excellent breathability, comfort and a close fit

**Knit Wrist:** Elasticated knit wrist provides a secure fit and keeps hands free from dirt and debris

### Sectors

- Automotive • Construction & Utility • Engineering and Manufacturing
- Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

12 pairs per polybag / 120 pairs per case

<b>Code</b>	<b>800GR</b>
<b>Colour</b>	<b>Grey/Black</b>
<b>Sizes</b>	<b>7-11</b>

# Polyflex® Plus

Seamless nylon glove with foamed nitrile palm coating

### Features

**Grip:** The foamed nitrile coating channels oils and liquids away from the surface, ensuring superb wet grip

**Durable:** Coating offers outstanding abrasion resistance for longevity and durability

**Comfort:** The seamless nylon liner offers excellent breathability, comfort and a close fit

**Header Card:** Also available on a header card for easy display and allowing for lower order quantities

### Sectors

- Automotive • Construction & Utility • Engineering and Manufacturing
- Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

12 pairs per polybag / 120 pairs per case

<b>Code</b>	<b>800</b>
<b>Colour</b>	<b>Grey/Black</b>
<b>Sizes</b>	<b>7-11</b>

# Polyflex®

Seamless knitted nylon glove with polyurethane palm coating

### Features

**Comfort:** Seamless for extra comfort whilst the open back style allows excellent breathability

**Low Linting:** Reduces the risk of product contamination

**Dexterity:** The glove has been designed to be tight fitting to give maximum dexterity in the most delicate of applications

**Knit Wrist:** Elasticated knitted wrist ensures a secure fit and keeps hands free from dust and debris

**Colours:** Available in white or grey

### Sectors

- Automotive • Construction & Utility • Engineering and Manufacturing
- Warehousing, Transport and Logistics

# Matrix® P Grip

Seamless knitted liner with polyurethane palm coating

Reusable Gloves

General Handling

### Features

- Offers good abrasion and tear resistance
- Seamless knitted liner for extra comfort
- Open back style allows the hands to breathe keeping them cool and comfortable
- Close fitting design for maximum dexterity
- Elasticated knitted wrist provides a secure fit and keeps hands free from dust and debris
- Available in two colours: grey and black

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Warehousing, Transport and Logistics

### Packing

- 1 pair per paper band / 12 pairs per bundle band / 144 pairs per case

Code	40-MAT	30-MAT
Colour	Black	Grey
Sizes	6-11	6-10

## Matrix® F Grip (Palm Coated)

Seamless knitted liner with a foamed nitrile coating

### Features

Seamless breathable liner for comfort. Foamed nitrile coating channels liquids away from glove surface, ensuring excellent grip in wet conditions

Foamed nitrile coating channels liquids away from glove surface, ensuring excellent grip in wet conditions

Elasticated knit wrist provides a secure fit

### Sectors

- Automotive • Construction & Utility • Engineering and Manufacturing
- Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

1 pair per paper band / 12 pairs per bundle band / 144 pairs per case

Code	10-MAT
Colour	White/Grey
Sizes	6-11

## Matrix® Fingerless

Seamless knitted liner with polyurethane palm coating

### Features

Seamless liner for comfort

Close fitting with three open fingers for maximum dexterity and tactility

Flexible polyurethane palm coating

Longer dip coating on palm for additional protection

Elasticated knitted wrist provides a secure fit

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing
- Warehousing, Transport and Logistics

### Packing

12 pairs per bundle band / 144 pairs per case

Code	933
Colour	Red/Black
Sizes	8-11

## Matrix® Touch 1

Seamless knitted liner with polyurethane palm coating and touch sensitive fingertips

### Features

Tactile touch sensitive fingertips enable the wearer to use touch screen machinery or portable touch screen devices with precision and without the need to remove the glove

Polyurethane palm coating is flexible and provides good mechanical protection

Seamless breathable liner for comfort

Elasticated knitted wrist provides a secure fit

### Sectors

- Automotive • Construction & Utility • Engineering and Manufacturing
- Warehousing, Transport and Logistics

### Packing

12 pairs per bundle band / 144 pairs per case

Code	45-MAT
Colour	Black/White
Sizes	6-11

## Matrix® S Grip

Seamless polycotton shell with crinkle latex palm coating

### Features

Flexible crinkle latex palm coating for good wet and dry grip  
Seamless, breathable polycotton liner for comfort  
Elasticated knitted wrist provides a secure fit and keeps hands free from dust and debris

### Sectors

• Construction & Utility • Warehousing, Transport and Logistics

Code	50-MAT
Colour	Yellow/Orange
Sizes	8-10

### Packing

1 pair per paper band / 12 pairs per bundle band / 144 pairs per case

## GH300 S Grip

Seamless polycotton shell with crinkle latex palm coating

### Features

Excellent grip in both wet and dry conditions for safe and secure handling  
Seamless breathable liner for comfort  
Elasticated knitted wrist provides a secure fit

### Sectors

• Construction & Utility • Warehousing, Transport and Logistics

Code	GH300
Colour	Yellow/Orange
Sizes	9-10

### Packing

12 pairs per polybag / 144 pairs per case

# Daytona™ & Daytona Plus™

Drivers style high grade leather glove

### Features

- Good abrasion, tear and puncture resistance
- Elasticated safety cuff holds glove in place and ensures a secure fit
- Fleece lining for extra comfort and warmth
- Soft high grade leather is comfortable and provides excellent grip
- Natural Grain Leather ( DR100), Pigmented grain for extra water resistance (DR200)

### Sectors

- Construction & Utility • Warehousing, Transport and Logistics

Code	DR100	DR200
Colour	Yellow	Yellow
Sizes	8-10	8-11

### Packing

1 pair per polybag/ 10 pairs per master polybag/ 50 pairs per case

# Imola®

Drivers style glove made with a full micro-foam nitrile coating and a soft fleecy liner

### Features

- Style & Coating:** This unique glove with 360 micro-foam coating has the look and style of a conventional leather drivers glove but is considerably lighter in weight and more dexterous
- Grip:** As well as excellent dry grip, the micro-foam coating offers optimum wet grip by channelling liquids away from the glove surface
- Comfort:** The soft fleecy lining keeps the hands warm and comfortable at all times
- Durability:** Delivers excellent abrasion protection, durability and a long life expectancy
- Fit:** Adjustable Velcro wrist strap ensures a secure fit and helps to keep hands free from dust and debris
- Sanitized™** glove featuring an antimicrobial treatment that provides added protection against harmful bacteria and fungi. The additive protects the gloves from microbial growth, odours and provides long lasting material protection

### Sectors

- Construction & Utility • Warehousing, Transport and Logistics • Waste Management and Local authority

Code	DR300
Colour	Gold
Sizes	7-11

1 pair per paper band/ 10 pairs per bundle band/ 50 pairs per case

Reusable Gloves

General Handling

## Multi-Task® 3

Blend of synthetic leathers with PVC reinforced fingertips, inner palm

### Features

**Flexible:** Close fitting design ensures maximum user dexterity and touch screen functionality

**Comfortable:** Combination of materials offers excellent in-use comfort

**Stretch:** Materials flex in conjunction with the hand's natural movement

**Protection:** Reinforced areas on palm and finger tips ensure added protection in key areas

**Fit:** Adjustable Velcro wrist strap for a secure fit

### Sectors

• Automotive • Construction & Utility • Engineering and Manufacturing • Waste Management and Local authority

Code	MT3
Colour	Black/Grey
Sizes	7-11

### Packing

1 pair per paper band / 10 pairs per case

## Multi-Task® 5

Blend of synthetic leathers with PVC reinforced fingertips, inner palm

### Features

**Flexible:** Close fitting design ensures maximum user dexterity and touch screen functionality

**Comfortable:** Combination of materials offers excellent in-use comfort

**Stretch:** Materials flex in conjunction with the hand's natural movement

**Protection:** Reinforced areas on palm and finger tips ensure added protection in key areas

**Fit:** Adjustable Velcro wrist strap for a secure fit

### Sectors

• Automotive • Construction & Utility • Engineering and Manufacturing • Waste Management and Local authority

Code	MT5
Colour	Black/Grey
Sizes	7-11

### Packing

1 pair per paper band / 10 pairs per case

# Multi-Task® E

Seamless knitted nylon liner with a nitrile palm coating

### Features

**Reinforced Thumb Crotch:** Nitrile reinforcement between the thumb and forefinger offers additional protection in an area that is highly susceptible to wear and tear

**Grip:** The highly flexible nitrile coating has a slightly roughened finish which improves handling performance, particularly in light oil applications

### Sectors

• Automotive • Construction & Utility • Engineering and Manufacturing

Code	MTE
Colour	Red/Black
Sizes	7-11

### Packing

1 pair per paper band / 5 pairs per bundle band / 10 pairs per case

# Matrix® Nitrile Grip

Seamless knitted glove with full nitrile coating

### Features

**Seamless breathable liner** for extra comfort

**Lightweight full nitrile coating** offers excellent flexibility

**Offers soft excellent dry grip**

**Elasticated knitted wrist** provides a secure fit

### Sectors

• Automotive • Construction & Utility • Engineering and Manufacturing  
• Warehousing, Transport and Logistics • Waste Management and Local authority

Code	11-MAT

Sizes	8-11

### Packing

12 pairs per polybag / 120 pairs per case

Reusable Gloves

General Handling

# Grip It® Oil

Seamless knitted nylon liner with dual nitrile coating

Reusable Gloves

Cut Resistant

### Features

**Handling:** Providing ultimate abrasion protection and gripping ability. Utilising two layers of nitrile; fully coating the hand and the second coating the palm

**Durable:** Delivers excellent abrasion protection, durability and a long life expectancy

**Comfort:** The contoured design together with the soft seamless knitted nylon liner and resilient nitrile coating ensures ultimate comfort

**Knit Wrist:** Elasticated knitted wrist ensures a secure fit and keeps hands free from dust and debris

**Dual Coated:** First 'flat' nitrile coating effectively prevents water penetration, whilst the second 'foam' nitrile coating offers long lasting grip in wet and oily settings

**SilverClear®** glove formulated from silver, a powerful and proven antimicrobial agent that inhibits bacterial, fungal and viral growth. The additive will protect the gloves from microbial growth but also from mould and bad odours avoiding premature material degradation and discolouration

### Sectors:

- Construction & Utility • Engineering and Manufacturing
- Oil and Gas • Warehousing, Transport and Logistics

# Grip It® Oil Cut E

High visibility seamless cut resistant liner with a dual nitrile coating

## Features

**Protection:** Made from a technically engineered yarn, the liner attains excellent EN388 scores in all categories

**Handling:** Providing ultimate abrasion protection and gripping ability. Utilising two layers of nitrile; the first layer fully coated and the second palm coated

**Durable:** Delivers excellent protection, durability and a long life expectancy

**Comfort:** The contoured design together with the soft seamless knitted liner and resilient nitrile coating ensures ultimate comfort with minimal hand fatigue in prolonged use

**High Visibility:** High visibility colour scheme increases visual awareness

**Knit Wrist:** Elasticated knitted wrist provides a secure fit and keeps hands free from dirt and debris

**Dual Coated:** First 'flat' nitrile coating effectively prevents water penetration, whilst the second 'foam' nitrile coating offers long lasting grip in wet and oily settings.

**SilverClear®** glove formulated from silver, a powerful and proven antimicrobial agent that inhibits bacterial, fungal and viral growth.

## Sectors

• Automotive • Construction & Utility • Engineering and Manufacturing • Waste Management and Local authority

Reusable Gloves

Cut Resistant

# Capilex® D

Durable, dexterous, great cut resistance all combined with a foamed Nitrile coating for enhanced grip

Reusable Gloves

Cut Resistant

### Features

**Comfort:** Ultra-lightweight liner engineered without the addition of brittle glass fibre or steel, ensures the safety and superior comfort of the wearer during prolonged use

**Long lasting:** The reinforced thumb crotch makes sure the glove stands up to repeated abrasion and damage in a high stress area. The foamed Nitrile coating ensures exceptional wet and dry grip

**Real World Protection:** Proven high cut resistance, tested to EN388:2016 ISO Cut Level D. Heat resistant up to Contact Heat Level 1 ( 100°C ), EN:407:2004

**Precision:** The new Capilex D combines tactility and protection like no other glove on the market, meaning users no longer need to compromise between high cut resistance and comfort. Designed to be close fitting and available in a wide range of sizes the Capilex D is ideal for high precision handling where cut and heat are a risk

**Graphene Enhanced:** Capilex D is enhanced with Kyorene® Graphene to provide a multitude of inherent benefits. These include Anti-Bacterial, Thermal Regulating, Odour, Neutralising & UV Protecting properties designed to keep you safer and more comfortable than ever

### Sectors:

- Automotive • Construction & Utility
- Engineering and Manufacturing • Oil and Gas
- Waste Management and Local authority

### Packing

12 pairs per polybag / 48 pairs per case

Code	CPD
Colour	Grey/Black
Sizes	6-12

# Dyflex® Plus N

Lightweight high cut resistant glove with foamed nitrile coating and thumb crotch reinforcement

### Features

**Performance:** The remarkably lightweight liner provides excellent levels of cut, abrasion and tear resistance providing superb mechanical protection

**Reinforced Crotch:** Flat nitrile reinforcement between the thumb and forefinger offers additional protection in an area that is highly susceptible to wear and tear

**Grip:** Foamed nitrile palm coating channels oils and liquids away from the surface of the glove to optimise grip and allow safe handling at all times

**Comfort:** The seamless breathable liner and highly flexible palm coating ensure a high level of comfort even in prolonged use

**Dexterity:** The glove has been designed to be close fitting to provide greater dexterity

**Durable:** Maximum abrasion resistance and reinforced thumb crotch increase durability and ensure longevity

**Knit Wrist:** Elasticated knitted wrist provides a secure fit and keeps hands free from dust and debris

**Sanitized™** glove featuring an antimicrobial treatment that provides added protection against harmful bacteria and fungi. The additive protects the gloves from microbial growth, odours and provides long lasting material protection

### Sectors:

• Automotive • Construction & Utility • Engineering and Manufacturing • Warehousing, Transport and Logistics

### Packing

1 pair per paper band / 10 pairs per bundle band / 40 pairs per case

Code	DPN
Colour	Grey/Blue
Sizes	7-11

# Dyflex® Ultra

Seamless knitted glove with Dyneema® Diamond Technology and polyurethane palm coating

### Features

**Cut Resistant:** The liner, made with Dyneema® Diamond Technology, provides the maximum level of cut resistance without the use of abrasive materials

**Grip:** Polyurethane palm coating provides outstanding abrasion resistance and an excellent grip

**Comfort:** The seamless construction of the soft yarn provides an exceptional level of comfort, whilst the open back style allows for excellent breathability

**Dexterity:** Designed to be close fitting to give maximum dexterity for the most tactile of operations

**Knit Wrist:** Elasticated knitted wrist provides a secure fit and keeps hands free from dust and debris

**Sanitized™** glove featuring an antimicrobial treatment that provides added protection against harmful bacteria and fungi. The additive protects the gloves from microbial growth, odours and provides long lasting material protection

### Sectors

Sizes	6-11

Dyneema® is a DSM Assets BV registered trademark

# Matrix® Green PU Fingerless

Seamless knitted high cut resistant fingerless glove with a polyurethane palm coating

### Features

- Three open fingers and flexible polyurethane coating enables precise handling in applications necessitating fingertip contact
- High cut resistant liner achieves excellent EN388 scores for abrasion, cut and tear resistance
- Close fitting seamless liner allows for excellent dexterity
- The back of the glove is uncoated, ensuring the hands stay well-ventilated
- Elasticated knitted wrist provides a secure fit and hands free from dust and dirt

### Sectors

- Automotive • Construction & Utility • Engineering and Manufacturing • Oil and Gas • Warehousing, Transport and Logistics • Waste Management and Local authority

Code	MGP-FL
Colour	Green/Black
Sizes	7-11

### Packing

1 pair per paper band / 12 pairs per bundle band / 48 pairs per case

# Matrix® Green PU

Seamless knitted high cut resistant glove with a polyurethane palm coating

### Features

- High cut resistant liner, with engineered yarn, provides excellent EN388 scores for abrasion, cut, tear and puncture
- Soft seamless knitted liner provides superior comfort for this level of protection
- Designed to be close fitting to give maximum dexterity
- Elasticated knitted wrist provides a secure fit and keeps hands free from dust and debris

### Sectors

Sizes	7-11

### Packing

1 pair per paper band / 12 pairs per bundle band / 48 pairs per case

Cut Resistant

# Tigmaster™

Sheepskin / leather welding gauntlet

### Features

Materials: Sheepskin palm (0.8mm) with heavy duty leather cuff (1.0mm)

Welding: Specifically designed for type B (Tig welding) and light mechanical handling

Compliant: With EN12477 - Welding Standard

### Sectors:

- Automotive
- Engineering and Manufacturing

Code	LMW124
Colour	Grey
Sizes	10

### Packing

1 pair per polybag / 100 pairs per case

# Weldmaster™

Premium quality chrome leather welding gauntlet

### Features

Protection: Welded seams protect against thermal and mechanical discharge

Thermal Lining: Thermal lining improves comfort and contact heat protection

Design: Specifically designed for type A (Mig/Arc welding) and light mechanical handling

Compliant: Compliant with BS EN12477 2001+A1:2005 Type A - Welding Standard

### Sectors:

- Automotive
- Engineering and Manufacturing
- Construction & Utility

Code	LW93

10 pairs per polybag / 30 pairs per case

Reusable Gloves

Hot Handling

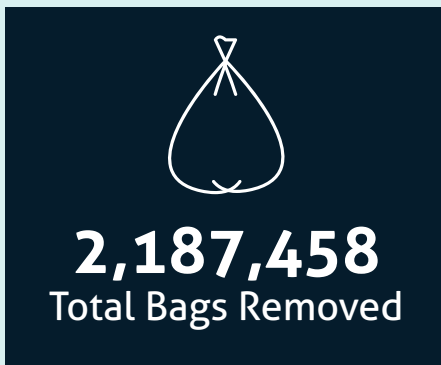

We've embarked on the **largest packaging review** in the history of our reusable gloves.

Our Environmental, Social and Governance pledge is to **remove 40 tonnes of single use plastic packaging** from our product offerings.

We have now started to introduce paper band packaging for both primary and secondary packaging.

#### WHAT WE HAVE ACHIEVED SO FAR:

## Saved for every case you buy!\*

\*Based on 144 pairs per case

**Join the pledge.**

**Help us reduce excess plastic packaging in the PPE Hand Protection Industry!**

**Look out for our Plastic Free Stamp\***

\*Paper Bands to be rolled out over the coming months across our reusable product range.

# Nitri-Tech III® (Flock Lined) (33cm)

Nitrile synthetic rubber glove

## Features

**Performance:** Offers very good abrasion and puncture resistance and protection against a wide range of chemicals including strong detergents, oils and certain solvents

**Durable:** Achieves an excellent abrasion score as per EN388 standard

**Comfort:** Anatomically shaped ensuring comfort and reducing hand fatigue

**Good Grip:** Non-slip diamond pattern on the palm of glove enhances grip

**Flock Lined:** Soft cotton flock lining eases wear and removal, and absorbs perspiration keeping hands cool and comfortable

## Sectors

- Automotive • Food Manufacturing and Prep • Janitorial

# TE0360

Touch-E Electricians Glove

Our insulating gloves are manufactured in accordance with ISO 9001:2015 Certification ensuring very high quality standards.

All applicable tests according to EN 60903 and IEC 60903 standards are carried out within the production site in a quality assured laboratory.

The quality approach with visual and dielectric inspection of 100% of the production offers users the guarantee of conformity.

Manufactured with a water based technology (no use of solvents), our technology, combined with the use of natural materials, provides assurance of greater care for the environment.

Reusable Gloves

Electrical Handling

**1000 V AC / 1500 V DC**  
protection for high voltage of vehicles

**GRIP**  
better grip on tools and small parts

**ORANGE**  
the colour of electrical risk

**THICKNESS**  
30% thinner than traditional gloves

Canvas bag for Electricians Gloves

### Features

- Designed to store and carry Electricians Gloves
- Protects gloves when not in use which prolongs performance
- Velcro fastening ensures that gloves remain safe and secure inside the bag
- Strap with buckle makes it easy to carry and attach

### Sectors:

- Automotive • Construction & Utility

<b>Code</b>	<b>REBAG</b>
<b>Colour</b>	<b>Black</b>
<b>Sizes</b>	<b>One size</b>

### Packing

1 bag per polybag

# Electricians Leather Protector Gauntlet

Leather gauntlet over-glove

### Features

- Designed to be worn over Electricians Gloves
- Provides additional mechanical protection
- Offers a higher level of grip
- Protects in dirty or oily environments
- Extends the lifespan of Electricians Gloves
- Available with or without a buckle

### Sectors:

- Automotive • Engineering and Manufacturing
- Construction & Utility

<b>Colour</b>	<b>Brown</b>

### Packing

250 mats per pack / 5 dispensers per case

# Screen Wash

Dissolvable Screen Wash Tablet

## Features

- Each Tablet produces 5L of screenwash
- Suitable for use down to -5°C
- Screenwash tablets eliminate the need for plastic tubs
- Reduces plastic waste
- Add 1 tablet with 5L of water to the car reservoir

## Sectors:

- Automotive • Retail • Local Authorities • Transport • Engineering and Manufacturing

<b>Code</b>	<b>SWP002BG</b>
<b>Colour</b>	<b>Blueberry &amp; Coconut</b>
<b>Size</b>	<b>5L screenwash tablets</b>

## Packing

2 tabs per pack / 50 packs per case

## DC03

### Non-woven coveralls

#### Features

Non-woven polypropylene coveralls which provide hygienic protection against dirt and non hazardous splashes  
Elasticated hood, wrists, ankles and waist, with a zip fastening  
Available in white and blue  
Individually wrapped

#### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial
- Medical, Vet, Dental, Pharmaceutical • Warehousing, Transport and Logistics • Waste Management and Local authority

Code	DC03
Colour	White
Sizes	M-XXL

#### Packing

1 coverall per pack / 50 packs per case

## DC05

### Laminate hazard protective coveralls

#### Features

Non-woven Category III coveralls made from soft layers of spunbonded and laminate polypropylene.

A high quality garment providing the ultimate strong protection against type 5 dry particle and type 6 light splash chemical hazards.

Elasticated hood, wrists, ankles and waste, with a two-way zip fastening and sealable zip flap.

Low fibre shedding, flexible material.

EN ISO 13688 Protective Clothing General Requirements

#### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Oil and Gas • Warehousing, Transport and Logistics • Waste Management and Local authority

Code	DC05
Colour	White
Sizes	M-XXXL

#### Packing

1 coverall per pack / 25 packs per case

# DF01 Hand Made & DF01M Machine Made

CPE overshoes

### Features

- Hand-sealed/Machine-sealed polythene overshoes
- Widely used in the food industry
- Available in blue
- Deeply embossed for non-slip use
- No elastic tie on bundles in accordance with food safety regulations

### Sectors:

- Construction & Utility • Engineering and Manufacturing
- Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Waste Management and Local authority

### Packing

10x10 bundles per bag / 20 bags per case

Code	DF01	DF01/16	DF01M	DF01M/16

# DF02

CPE Non Woven overshoes

### Features

- Non-woven upper with a deeply embossed CPE sole for non-slip use.
- Widely used in the food industry.

### Sectors:

- Construction & Utility • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical
- Waste Management and Local authority

### Packing

4 x 10 bundles per bag / 20 bags per case

Code	DF02
Colour	Blue/Blue, Blue/White, White
Sizes	41cm / 16"

# DM01

Mob Caps

### Features

- Soft elasticated head cover with double stitch for added strength and support.
- Widely used in the food industry, made of non-woven polypropylene.
- DC01BCM: Made of non-woven polypropylene with a detectable metal strip.
- Soft elasticated head cover with double stitch for added strength and support.
- One size fits all.

### Sectors:

- Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial
- Medical, Vet, Dental, Pharmaceutical • Waste Management and Local authority

### Packing

100 caps per polybag / 10 polybags per case

Code	DM01
Colour	Blue, White, Red, Green, Yellow
Sizes	One size

## ASW, ASW/500 & ASW/1000

Heavy duty surface wipes

### Features

A blue disposable wet wipe impregnated with a biocidal formulation, effective against most bacteria, fungi and viruses

Used in medical and food environments to prevent microbiological contamination

A soft but strong wipe which doesn't damage surfaces but leaves them clean and disinfected

### Sectors:

- Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical
- Hair and Beauty • Waste Management and Local authority

### Packing

150 wipes per tub / 10 tubs per case (ASW) 500 wipes per tub (ASW/500) / 1000 wipes per tub (ASW/1000)

Code	ASW	ASW/500	ASW/1000

Sizes	20x23cm / 8x9"	20x23cm / 8x9"	20x23cm / 8x9"

## PBW

Heavy duty probe wipes

### Features

A blue disposable wet wipe impregnated with a biocidal formulation, effective against most bacteria, fungi and viruses

Used in medical and food environments to prevent microbiological contamination

A soft but strong wipe which doesn't damage surfaces but leaves them clean and disinfected

### Sectors:

- Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Hair and Beauty • Waste Management and Local authority

### Packing

200 wipes per tub / 4 tubs per case

Code	PBW
Colour	Blue
Sizes	13x13cm / 5x5"

## SIHW

Industrial scrub wipes

### Features

An orange abrasive wet wipe impregnated with an alcohol-based degreasing solution

Used in multiple industrial sectors for cleaning grease, grime and dirt where soap and water access is limited

The dual surface offers an abrasive side to remove ingrained dirt and a smooth side to wipe over clean

Dermatologically tested, the wipe contains a conditioning lotion for hand preservation

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Janitorial • Oil and Gas • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

100 wipes per tub / 4 tubs per case

Code	SIHW
Colour	Orange
Sizes	25x28cm / 10x11"

## PCF120BE

2 Ply embossed centrefeed rolls - 120m

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination  
Perforated sheets to allow single sheet dispensing and reduced wastage  
Roll length: 120m  
Sheet width: 170mm

### Sectors:

- Automotive • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

120 meters per roll / 6 rolls per pack

Code	PCF120BE
Colour	Blue

## PCF150B & PCF150W

2 Ply plain centrefeed rolls - 150m

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination  
Perforated sheets to allow single sheet dispensing and reduced wastage  
60mm Splitable core to allow pulling the sheets through the centre  
Roll length: 150m  
Sheet width: 175mm

### Sectors:

- Automotive • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

150 meters per roll / 6 rolls per pack

Code	PCF150B	PCF150W
Colour	Blue	White

## PFS360

Floor stand rolls 1800 Sheets

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination  
Perforated sheets to allow single sheet dispensing and reduced wastage  
76mm Solid core to allow compatibility with most dispensers  
Roll length: 360m

### Sectors:

- Automotive • Construction & Utility • Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Medical, Vet, Dental, Pharmaceutical • Warehousing, Transport and Logistics • Waste Management and Local authority

### Packing

2 rolls per pack

Code	PFS360
Colour	White, Blue

## PJBC150

White 2 Ply mini jumbo toilet rolls

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination

Perforated sheets to allow single sheet dispensing and reduced wastage

76mm Solid core to allow compatibility with most dispensers

Roll length: 150m

Roll diameter: 180mm

Sheet length: 200mm

Sheet width: 90mm

### Sectors:

- Janitorial • Medical, Vet, Dental, Pharmaceutical
- Waste Management and Local authority

Code	PJBC150
Colour	White

### Packing

12 rolls per pack

## PJTP150 & PJTP300

White 2 Ply mini jumbo toilet rolls

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination

Perforated sheets to allow single sheet dispensing and reduced wastage

60mm Solid core to allow compatibility with most dispensers

Roll length: 150m (PJTP150) / 300m (PJTP300)

Roll diameter: 180mm (PJTP150) / 245mm (PJTP300)

Sheet length: 200mm (PJTP150) / 200mm (PJTP300)

Sheet width: 90mm

### Sectors:

- Janitorial • Medical, Vet, Dental, Pharmaceutical
- Waste Management and Local authority

Code	PJTP150	PJTP300
Colour	White	White

### Packing

12 rolls per pack (PJTP150) / 6 rolls per pack (PJTP300)

## PP1540

White 2 Ply toilet tissue rolls

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination

Embossed finish ensuring softness and great comfort  
Perforated sheets to allow single sheet dispensing and reduced wastage  
44mm Solid core to allow compatibility with most dispensers

Roll length: 20m

Sheets per Roll: 200

Sheet width: 90mm

### Sectors:

- Janitorial • Medical, Vet, Dental, Pharmaceutical • Waste Management and Local authority

### Packing

200 sheets per roll / 36 rolls per pack

Code	PP1540
Colour	White

## PTP320

White 2 Ply toilet tissue rolls

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination

Embossed finish ensuring softness and great comfort  
Perforated sheets to allow single sheet dispensing and reduced wastage  
44mm Solid core to allow compatibility with most dispensers

Roll length: 35.2m

Sheets per Roll: 320

Sheet width: 90mm

### Sectors:

- Janitorial • Medical, Vet, Dental, Pharmaceutical • Waste Management and Local authority

### Packing

320 sheets per roll / 36 rolls per pack

Code	PTP320
Colour	White

## PTP250

White 2 Ply toilet tissue sleeves

### Features

Made from a mix of 70% virgin paper pulp and 30% sugar cane, packaged in recyclable material

Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination

Plastic sleeves hold sheets together

Sheet length: 200mm

Sheet width: 105mm

Sleeve height: 85mm

### Sectors:

- Janitorial • Medical, Vet, Dental, Pharmaceutical • Waste Management and Local authority

### Packing

250 sheets per sleeve / 36 sleeves per case

Code	PTP250
Colour	White

# PHTC1

## 1 Ply C-fold hand towels

### Features

Made from 100% recycled paper and packaged in recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination  
C-fold interleaved for efficient dispensing with minimum waste  
Embossed finish ensuring softness and great comfort  
Available Colours: Green, Blue  
Sheet length (unfolded): 310mm  
Sheet width: 217mm

### Sectors:

- Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Waste Management and Local authority

### Packing

176 sheets per sleeve / 15 sleeves per case

Code	PHTC1
Colour	Green, Blue

# PHTC2

## 2 Ply C-fold hand towels

### Features

Made from mixed paper and packaged in recycled and recyclable material  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination  
C-fold interleaved for efficient dispensing with minimum waste  
Embossed finish ensuring softness and great comfort  
Sheet length (unfolded): 305mm  
Sheet width: 217mm

### Sectors:

- Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Waste Management and Local authority

### Packing

162 sheets per sleeve / 15 sleeves per case

Code	PHTC2
Colour	White

# PHTZ2

## 2 Ply Z-fold hand towels

### Features

Conveniently wrapped into easily removable plastic sleeves to hold the pack of towels together  
Disposable product for easy and quick handling, increased hygiene and reduced risk of contamination  
Z-fold for maximum infection control  
Fully embossed ensuring a cleaner finish  
Sheet length (unfolded): 230mm  
Sheet width: 230mm

### Sectors:

- Engineering and Manufacturing • Food Manufacturing and Prep • Janitorial • Waste Management and Local authority

### Packing

150 sheets per sleeve / 20 sleeves per case

# Standards Explained

All personal protective equipment (PPE) gloves must comply with the standard EN ISO 21420, Protective Gloves General Requirements and Test Methods. Other standards, some of which are explained below, relate to specific types of hazards.

- Chemical Risk
- Mechanical Risk
- Thermal Risk
- Cold Risk

## EN ISO 374-1:2016+A1:2018

EN 374-1 is the standard for protective gloves against dangerous chemicals and micro-organisms.

Gloves are tested in the palm (unless over 400mm in which case the cuff is also tested) for permeation resistance against any of 18 specified chemicals.

There are 3 types of chemical resistant gloves; Type A, Type B and Type C as detailed.

The permeation performance levels are from 1-6, with 6 being the highest.

EN ISO 374-1:2016  
+A1:2018 Type A

UVWXYZ

### Type A

Passing a minimum level 2 permeation resistance against at least 6 chemicals. Code letters for chemicals shown under the pictogram.

EN ISO 374-1:2016  
+A1:2018 Type B

XYZ

### Type B

Passing a minimum level 2 permeation resistance against at least 3 chemicals. Code letters for chemicals shown under the pictogram.

EN ISO 374-1:2016  
+A1:2018 Type C

### Type C

Passing a minimum level 1 permeation resistance against at least 1 chemical. No letters under the pictogram.

EN ISO 374-5:  
2016

To claim chemical resistance (and micro-organism resistance) EN374-5 must also be passed which ensures the gloves do not leak when tested with air or water. Virus resistance can also be tested under EN374-5 and if passed the word Virus can be shown under the EN374-5 pictogram.

Chemical resistant gloves are also tested against EN374-4 which gives an indication of the degradation of the glove material in contact with the chemicals claimed under EN374-1.

## EN 388:2016+A1:2018

EN 388 is the standard for protective gloves and other hand protective equipment against mechanical risks.

*X indicates the test was not carried out or not applicable. 0 indicates the minimum criteria for the test were not achieved.*

EN 388:2016  
+A1:2018

**A B C D E F**

**Abrasion resistance** is the resistance of the palm of the glove to a specified abrasive paper and is measured in cycles. Performance levels from 1 to 4, with 4 being the highest.

**Coup cut resistance** is measured using a counter rotating blade to obtain a cut index. The blade must be checked after each cut cycle and, if the blade is deemed to be blunted, the ISO cut method must be used (see E). Performance levels from 1 to 5, with 5 being the highest.

**Tear resistance** is a measure of the force required to tear the glove. Performance levels from 1 to 4, with 4 being the highest.

**Puncture resistance** is a measure of the force required to puncture the material with a specified stylus. Performance levels from 1 to 4, with 4 being the highest.

**ISO cut resistance** is a measure of the force in Newtons required to cut through a material with a calibrated blade after 20mm movement across the material. Performance levels from A to F, with F being the highest.

**Impact resistance** is not mandatory, but if the test is carried out and passed, this is indicated with the marking code "P."

## EN 407:2020

EN 407 is the standard for protective gloves and other hand protective equipment against thermal risks (heat and/or fire).

EN 407:  
2020

or

EN 407:  
2020

*If the product claims a limited flame spread level of performance (at least level 1) Pictogram 1 should be used. If the product does not claim a limited flame spread level of performance Pictogram 2 should be used. The marking of the two Pictograms together on the product is forbidden. Levels of performance should be included under the relevant Pictogram.*

**A B C D E F**

**Flame Resistance** (limited flame spread) is a measure of how long a material continues to burn or glow after application and removal of a source of ignition. Performance levels from 1 to 4, with 4 being the highest.

**Resistance to contact heat** is measured at 100, 250, 350 and 500 °C. To pass, it must take at least 15 seconds for the inside of the glove to rise by 10 °C. Performance levels 3 and 4 can only be claimed if at least level 3 for limited flame spread is also achieved. Performance levels from 1 to 4, with 4 being the highest.

**Resistance to convective heat** is the time a material can delay transfer of heat emitted from a flame. Performance levels 3 and 4 can only be claimed if at least level 3 limited flame spread is also achieved. Performance levels from 1 to 4, with 4 being the highest.

**Resistance to radiant heat** is the time a material can delay transfer of heat from a radiant heat source. Performance levels 3 and 4 can only be claimed if at least level 3 limited flame spread is also achieved. Performance levels from 1 to 4, with 4 being the highest.

**Resistance to small splashes of molten metal** is the number of drops required to increase the temperature on the inside of a glove by 40°C. Performance levels 3 and 4 can only be claimed if at least level 3 limited flame spread is also achieved. Performance levels from 1 to 4, with 4 being the highest.

**Resistance to large quantities of molten metal** is the weight of molten metal required to cause smoothing or other changes to PVC foil (skin simulant) placed behind a glove. Performance levels 3 and 4 can only be claimed if at least level 3 limited flame spread is also achieved. Performance levels from 1 to 4, with 4 being the highest.

## EN 511:2006

EN 511 is the standard for Protective gloves and other hand protective equipment against cold.

EN 511:  
2006

**A B C**

*X indicates the test was not carried out or not applicable. 0 indicates the minimum criteria for the test were not achieved.*

*For extreme cold (-30°C and below), an extreme cold flexibility test must also be carried out.*

**Resistance to convective cold** is a measure of the transfer of cold via convection. Performance levels from 1 to 4, with 4 being the highest. To claim levels 2 to 4, an EN388 performance level of at least 2 for abrasion and tear must also be achieved.

**Resistance to contact cold** is a measure of the resistance when the glove is in contact with a cold item. Performance levels from 1 to 4, with 4 being the highest. To claim levels 2 to 4, an EN388 performance level of at least 2 for abrasion and tear must also be achieved.

**Resistance to water penetration** is a measure of permeability to water. Performance level 1 indicates no water penetration. If this test is failed, this is indicated by Performance level 0.

# Chemical Performance

The below handy chemical breakthrough 'ready-reckoner' shows popular gauntlet materials and the associated breakthrough times for some common chemicals. For specific chemical breakthrough times, and an application specific product solution contact your local area sales manager, these should be used as a guide only.

## BS EN374-1 Permeation Performance Levels and Corresponding Breakthrough Times in Minutes

Chemical	Lightweight PVC (0.6mm)	Mediumweight PVC (0.8mm)	Heavyweight PVC (1.2mm)	Nitrile 0.4mm	Neoprene	Mediumweight Nat Rubber (0.7mm)	Heavyweight Nat Rubber (1.0mm)

# Technology Centre

As part of Polyco Healthline's commitment to new product development and compliance a substantial investment has been made in a state of the art purpose built test laboratory in Bourne. With Polyco Healthline's Technology Centre, the service and expertise offered to our customers is second to none.

## What can we test at our laboratory?

Our Technology Centre is well-equipped with state of the art test equipment to enable us to perform a wide range of chemical and physical tests on a variety of different product types. The newly built suite brimming with cutting-edge test equipment is where we put our products through their paces.

The centre is split into three separate laboratories:

- **Chemical Laboratory:** for tests including permeation and degradation resistance to various chemicals, powder content, pH testing, overall food migration, colour fastness to perspiration, and inorganic content.
- **Physical Laboratory:** for tests including abrasion resistance, blade-cut resistance, tear resistance, puncture resistance, tensile strength, dart impact resistance, force at break and elongation.
- **Wet Laboratory:** for tests including water leak and washing tests.

## Here to help

The laboratory operates as a business support unit and carries out internal testing or testing to aid our customers.

Listed here is just a sample of the tests that our Technology Centre can undertake:

- ✓ EN 374-2
- ✓ EN 16523-1
- ✓ EN 388
- ✓ EN 21420
- ✓ EN 455

## Why have our own laboratory?

The Technology Centre is accredited for testing to ISO 17025 by UKAS. The schedule of accreditation, which contains a full list of the tests for which the laboratory is accredited, is available on request or directly from the UKAS website.

Many products – PPE, medical, or otherwise – have associated test standards which may be used by accredited testing laboratories such as our Technology Centre to evaluate or benchmark the performance of products. These tests are not only required for product certification but are also invaluable for areas such as new product development and complaint resolution.

Guided tours of the laboratory are available, giving customers the valuable opportunity to see test standards being performed in person and gain an extra understanding of what's involved in each of the tests.

## Distribution

Our head office alongside our six distribution centres are situated in Bourne, Lincolnshire, with an additional satellite office located in London.

At a combined capacity of over 37,000 pallet spaces spread across 31,000sqm, our distribution centres enable the capability for growth and a large stock holding.

Our site operates 24 hours with a dedicated container park, we manage container receipts and deliveries at night, with capacity for 10 containers per shift.

This coupled with the combination of our own vehicles and the services of major transport companies ensures we provide a quick and efficient service to meet the demands of our growing customer base.

Strategically positioned for easy access to seaports and major road networks, the warehouses are also conveniently connected for quick and efficient daily stock transfers.

## How do we operate?

We operate all picking using our RF scanners to ensure accurate picking each and every time, which are connected to our ERP system and updated on a live level, offering the most up to date position of stock at all times.

The majority of our warehouse and production operatives are multi skilled, so as to allow seamless transition of responsibilities as and when required, which enables us to provide a quick and efficient turnaround service from order receipt to despatch.

We have terminals in every DC for each operative to be able to access vital company information including a fully integrated Health & Safety platform, HR access, Company Benefits and many more.

Thumb print clocking technology for all Warehouse staff who operate in the DCs for security and safety of all staff and visitors.

Over 60 CCTV cameras across the DCs monitored internally by our Facilities team using the latest technologies, which include remote viewing capabilities for additional security.

## Certification

Our ISO 9001 and ISO 13485 certified quality management systems allow us to have full traceability throughout the supply process, all the way back to factory raw materials.

The certification ensures all aspects of the business processes are monitored for quality.

Efficient management of our operations also involves a range of measures designed to reduce our environmental impact.

We also hold ISO 14001 Environmental Management Systems certification.
