

Key-Lights

A tough anodised black finish covers precisely engineered aircraft-grade aluminium, giving this fashionable new range of key-ring torches a very contemporary styling. This smart look is complemented on the K1L with a 'Light-Ring' feature that glows when the light is on. A simple twist action turns on these super lightweight torches that are ideal for keyrings, handbags and car gloveboxes. The perfect LED Lenser to keep on you at all times.
