

PROTECH reinforced protective cases are cleverly designed to protect your devices efficiently if they happen to be dropped. Several technologies using different materials have been developed to cushion shocks, absorb the shockwave and disperse the energy of the impact. The exclusive combination of several protection elements means that PROTECH is highly resistant to falls and drops, in fact, 15 times higher than the requirements of military standard MIL-STD 810G.

Flexible and light, PROTECH cases fit perfectly like a second skin around the devices they protect and thus take up a minimum of space.

Featuring user-friendly accessories and carry options (neck strap, grip strap, stylus holder, base for tablets) PROTECH cases for tablets and input terminals are the ideal combination to safely carry and use your devices.

REINFORCED PROTECTIVE CASE FOR HONEYWELL CT40 Ref. 065014

AIRCELL SYSTEM

4 air pockets to absorb shocks.
Up to **400 drops from 1.20m**
