## GT120-HP-T6 Soldering System

Offer ends December 31st, 2021

Use promo code **GT-120-PR21**

The GT120 Soldering System is an adjustable temperature station that uses inductive technology as the heating mechanism. The system includes a power station with adapter, hand-piece, heater cartridge, and workstand.

The GT120 series is versatile and can be used with cost effective tips or high performance cartridges.

- \* Soldering tips sold separately
- \* Available from Authorized Metcal Distributors in Europe only

Eligible purchase dates: Valid through 31/12/2021, Europe only.
