Tech spec footnote	[2] This system is preinstalled with Windows® 7 Pro software and also comes with a license and media for Windows 8.1 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.
Tech spec footnote	[5] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
Tech spec footnote	[6] For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 8.1) of system disk is reserved for the system recovery software.
Tech spec footnote	[7] Double-layer discs can store more data than single layer discs. Double-layer discs burned with this drive may not be compatible with single-layer DVD drives and players. This drive cannot read or write to 2.6 GB single-sided/5.2 GB double-sided version 1.0 media. Don't copy copy-right protected materials.
Tech spec footnote	[8] 802.11 WiFi and Bluetooth combo sold separately or as an optional features.
