

FEATURES

- Plunger-style solder sucker
- Hand operated
- Overall length of 210mm
- Soft, non-slip handle
- Piston with double oil seals to guarantee no air leakage
- Replaceable nozzle
- Anti-static design
- Shipping weight of 0.2 lbs
- Suction capability of 32 cm-Hg

RS PRO Solder Sucker, 210 mm Length

RS Stock No.: 146-5244

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This solder sucker is designed to remove excess molten solder during desoldering. If you need to rework the soldering on your printed circuit board (PCB), simply heat the solder using a soldering iron and then use this tool to suck it away without damaging the PCB.

This desoldering tool is designed to work on PCB through-hole solder joints and is designed to be straightforward to use. Simply press down the plunger to create a vacuum, apply the nozzle to the molten solder and press the button to remove it.

General Specifications

Desoldering Tool Type	Solder Sucker
Applications	Suck it away without damaging the PCB

Electrical Specifications

Anti-Static	Yes
ESD Safe	Yes

Mechanical Specifications

Length	210mm
Weight	0.2lbs (Shipping weight)
Suction Capacity	32cm-Hg
