- **Anti-static design**
- **Suction capability of 32 cm-Hg**
- **Fast sucking action prevents solder from sticking**

RS PRO Solder Sucker, 163 mm Length

RS Stock No.: 151-3010

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

When you need to rework the soldering on a PCB, this RS PRO solder sucker is an essential tool. It's quick to set up and easy to operate. At just 163 cm in length, the compact design makes it portable enough to carry with you to wherever you need it.

The piston that creates the vacuum to remove the solder has double oil seals that guarantee no air leakage. It has a rust-proof spring that ensures a long working life. Thanks to an easily replaceable nozzle, maintenance of the desoldering tool is straightforward.

General Specifications
