Shield connection clamp, for shield on busbars, contact resistance < 1 m $\Omega$ 

### Your advantages

- · Easy handling
- · Spring-loaded, large-surface pressure plate
- Suitable for direct and busbar mounting
- Knurled screw

• As components, it is not possible to certify shield connections in accordance with the requirements of the directive and standards for electrical equipment in potentially explosive areas. As such, shield connection clamps can be used in the Ex area even without an appropriate approval or marking.
