

Accessory PCB-Cover

Ordering Information

Type	Article-No.
PCB-cover for printed circuit boards in euroboard size (160 x 100mm) with connector according to DIN EN 60603-2	400-000-00
Injection moulded from	Polypropylene (PP) RPP 390 ND
Flame retardant according to ASTM UL 94 V-0	free of halogens and phosphorus not dripping / self extinguishing
Elongation at break according to DIN 53 455	45%
Surface resistance	$10^{14} \Omega$
Dimensional stability under heat ISO - R 75-B	106°C

Note

If the printed circuit board is fitted with front panel on its own, the adapting device between pcb and front panel may reduce the available surface for the cover, so that the use of a shortened printed circuit board cover is indicated (2mm shorter, Art.-no. 400-001-00).
