HP USB 3.0 to Gigabit RJ45 Adapter G2

Gigabit network connectivity through USB

Convert your laptop's high-speed USB 3.0 connection to a fast 10/100/1000 Ethernet connection with the HP USB 3.0 to Gigabit RJ45 Adapter G2.

Reliable Connectivity
Get reliable connectivity from a wired Ethernet connection to corporate networks and the Internet.

Easy to use
Connect the USB end of the adapter to any USB-A port on your laptop and the Ethernet connector to your Ethernet cable[1]. There are no drivers to download because they're pre-installed.

Enables network manageability
Help IT secure and remotely manage your laptop fleet with advanced network manageability[2,3,4] features through a wired internet connection enabled by this adapter.

World-Class support
Rest easy with a one-year limited warranty.

1. Ethernet cable sold separately.
2. Advanced network manageability features include PXE Boot, Wake-on-Lan (Legacy Standby and Connected Modern Standby) and MAC Address Pass-Through.
3. Keep PC on AC power for Connected Modern Standby. HP USB 3.0 to Gigabit RJ45 Adapter G2 needs to be plugged into USB port having both charging and data providing function.
4. Need to have the latest NIC drivers via Windows Update.
