RS PRO 2 Shelf Aluminium Trolley Trolley, 866 x 500mm, 120kg Load

RS Stock No.: 669-3740

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS Pro trolleys and carts are plastic 2 shelf trolleys that are suitable for use in most environments. The trolleys are made from plastic with aluminium uprights and are available in a standard or large size. The trolleys are designed with built-in push and pull handles at both ends of the top tray. Swivel thermoplastic wheels/castors ensure the trolleys are easy to move and transport heavy loads. Two of the wheels/castors are braked for added safety when the trolley is stationary.
