SIMATIC MICRO-DRIVE the drive solution in extra-low voltage

Starter Kit for F-TM ServoDrive

[siemens.com/micro-drive](https://www.siemens.com/micro-drive)

Starter Kit for F-TM ServoDrive system

SIMATIC MICRO-DRIVE is an extremely versatile, seamless and safety-related servo drive system that covers a wide range of applications in the protective extra-low voltage range.

The F-TM ServoDrive, with an output of 280 W, is a technology module for SIMATIC ET 200SP. It can be controlled from SIMATIC S7-1500 / 1200 via technology objects (TO).

The F-TM ServoDrive Starter Kit is a value package that includes the drive controller and additional components for fast commissioning and efficient running.

Special offer:

- All-in-one package with all the components
- Only one article number
- Special price with savings of up to 64%

F-TM ServoDrive Starter Kit

- F-TM ServoDrive ST 5A
- SIMATIC ET 200SP Interface-Module IM 155-6PN ST
- SIMATIC ET 200SP BaseUnit
- Motor: ebm-papst ECI42.20 24V
- Cable: KnorrTec

SIMATIC S7-1500T Starter Kit

CPU 1511T-1 PN

- power supply PM1507, 24V/3A
- SIMATIC Memory Card, 4 MB
- SIMATIC STEP 7 Professional V16 Trial365-License and more...

Article number: 6ES7511-1TK02-4YB5

The information provided in this brochure contains merely general descriptions or characteristics of performance which in case of actual use do not always apply as described or which may change as a result of further development of the products. The requested performance features are binding only when they are expressly agreed upon in the concluded contract. All product designations could be trademarks or product names of Siemens AG or other companies which, if used by third parties, could infringe the rights of their owners.

To secure plants, systems and machines as well as networks against cyber attacks, a holistic industrial security concept must be implemented (and continuously updated) corresponding to current state-of-the-art technology. Products and solutions from Siemens are just one component of such a concept. You can find additional information about industrial security at siemens.com/industrialsecurity
