

## FEATURES

- Easy to fit, simply press into place by hand
- Grooved profile to hold edge into place
- Embedded metal insert for extra retention
- Sponge rubber sealing section for additional sealing and shock absorption
- No extra tools adhesives required

## RS PRO Black Edging strip, 20m x 25 mm x 16mm

RS Stock No.: 727-6052

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

**Product Description**

From RS Pro a high-quality flexible edge protector strip or edging strip designed as a simple way to cover and protect the sharp edges of sheet material such as metal panels. The edge protector has a robust design which consists of a U shaped metal insert strip covered in an extruded black PVC coating. The edge protection strip is simply pressed into place by hand and the lips in the PVC coating and teeth in the metal insert hold the inserted edge in place using a clamping effect. There is no need for any additional preparatory work, tooling or adhesives
