

AMPSEAL ACCESSORIES

The accessory items available to complement the AMPSEAL connectors, are backshells and sealing plugs.

BACKSHELLS

AMPSEAL backshells offer a high level of protection and help reduce wire strain. They are made of heavy-duty thermoplastic and provide enhanced aesthetics for AMPSEAL connector applications.

	Part Number	Description
8	2138529-1 (one half, two halves required per receptacle housing)	Vertical, sealed receptacle housing wire relief (a wire tie is recommended around the end of the backshell to aid in securing the halves together)
14	2138530-1 (one half, two halves required per receptacle housing)	
23	776464-1 (one half, two halves required per receptacle housing)	Vertical, sealed receptacle housing wire relief (accepts no. 4 self-tapping screw)
35	776463-1 (one half, two halves required per receptacle housing)	

SEALING PLUGS

Open cavities provide pathways for contaminants to enter the connectors. To maintain seal integrity, any unused cavity that has been pierced must be filled with the appropriate size sealing plug.

Color	Part Number	Contact Size	Wire Gauge Range	Material
White	770678-1	1.3 mm	16-20 AWG	Nylon
