RS PRO D Sub Adapter Male 9 Way D-Sub to Female 9 Way D-Sub

RS Stock No.: 828-274

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO slimline adaptors that plug into desktop PCs or peripheral equipment and have been designed to protect Interface ports from wear caused by plugging and unplugging of cables. A gender changer is a type of cable adapter that converts a male connector into a female connector of the same type or a female connector to a male connector of the same type. By using this cable adapter you can easily and quickly change the gender, or join two cables together. By changing the gender of your port and using the cable you already have means that you don't have to buy a new cable which will ultimately save you money.
