

## FEATURES

- Connector A is a USB-C male connector
- Connector B is an RJ45 ethernet connector
- Includes 3 USB-A female sockets
- Current rating of 0.5 A
- Voltage rating of 300 V
- Contact resistance of 2  $\Omega$
- Insulation resistance of 10 M $\Omega$

## RS PRO USB C to Ethernet Network Adapter

RS Stock No.: 895-0530

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

This essential network adapter lets you seamlessly connect your USB-C device to a wired network. It means you can enjoy reliable gigabit ethernet speeds on your laptop or other USB-C enabled device. This adapter has a compact design and supports USB 3.1 as standard. It has a unique reversible feature that allows you to plug your portable device in any direction. The universal nature of the USB-C connector means that it can work with any laptop, smartphone or tablet that has a matching USB-C port.
