DATASHEET - AR-ATO

Roller lever for ATO.

Delivery program

Basic function	Operating heads	
Part group reference	ATO	
Product range	Roller lever	
Mode of operation	Sideways	
For use with	Basic devices AT0	
Notes The operating head can be rotated at 90° intervals to adapt to the specified approach direction.		

Design verification as per IEC/EN 61439

Rated operational surrent for specified heat dissipation In A Output Heat dissipation, pur ople, current-dependent Poid Wo Output Explorment heat dissipation, current-dependent Poid Wo Output Oberacing ambient temperature min. Poins Wo Output Operacing ambient temperature min. Poins Yo Point Operacing ambient temperature min. Poins Yo Point Operacing ambient temperature max. Poins Yo Point 102.2 Constructure max. Point Mest the product standard's requirements. 102.2 Constructure of insulating materials to normal heat Point Mest the product standard's requirements. 102.2 String- Formal stability of enclosures Point Mest the product standard's requirements. 102.2 String- Formal stability of enclosures Point Point Point Mest the product standard's requirements. 102.2 String- Formal stability of enclosures Point Point Point Mest the product standard's requirements. 102.2 Constructure of insulating materials to abnormal heat Formal Point Point Point Point Point Point Point Point Point P	Design vernication as per IEC/EN 01439
