

Analogue Audio Switch | 2x RCA Stereo Input | 1x RCA Stereo Output + Headphone Output | Black

General information

Switch between two audio sources connected to one receiver with this Nedis® audio switch. Select the source by pushing one of the two switches on the front. You can also connect your headphones. Note that the headphones will automatically take over the audio signal from the receiver connected to the output.

Features

- Easily switch between two audio sources
- Manual source selection: push one of the two buttons on the front
- Headphone output which automatically shuts down the audio signal to the connected output
