

Smartvest Wireless-Flood Detector

Art. no. FUWM35000A

Page 1 of 2

- Detects liquids and reliably protects against water damage.
- Ideal for monitoring cellars, washing machines, and drains.
- Flexible installation of water level sensor. (Length of sensor line: 1.8 m)
- Immediate triggering of alarms with the built-in high-volume 90 dB siren
- Low battery notification sent to the Smartvest alarm control panel
- Test button for manual self-testing and test alarms

The Smartvest Wireless Water Detector is an extension module of the Smartvest Wireless Alarm System. It reacts to water and other liquids and signals these events to the wireless alarm control panel. The Smartvest Wireless Water Detector consists of a transmitter and a sensor. These two units are connected via a cable that can be up to 1,8 metres long. The sensor reacts to water and reports it to the alarm control panel. Water leaking from broken pipes or from burst washing machine hoses is detected quickly so that quick action can be taken to reduce the damage.

Smartvest Wireless-Flood Detector

Art. no. FUWM35000A

Technical Data:

Areas of usage	Inside
Color	White
Compatible with Secvest	No
Compatible with Smartvest	Yes
Power consumption Standby	0,017 mA
Min. humidity	10
Dimensions	(B x L x H) 87 x 37 x 120 mm
Alarming	Acoustic warning signal
Display	LED
Battery operation	Yes
Battery type	AA (1,5V)
Gross weight	0,31 kg
Type of detection	Resistance measurement
Wireless modulation	FSK
Radio frequency	868 MHz
Wireless range	(Depending on installation) 30 - 100 m

Housing material	Plastic
Battery quantity	4
Max. battery life	2 y
Max. operating temperature	40 °C
Max. humidity	93 %
Min. operating temperature	0 °C
Net weight	0,215 kg
Tamper protection	No
Sound pressure	90 dB
Transmission power	4,5 dBm
Sensor type	Contact sensor
DC voltage supply	6 V
Power consumption	34,3 mA
