

Getting to know the Belkin ROCKSTAR™ Headphones with USB-C™ Connector, G3H0002

 belkin.com/uk/support-article

The **Belkin ROCKSTAR™ Headphones with USB-C™ Connector, G3H0002** is an in-ear earbud headphone with multiple ease of use design features. The Belkin G3H0002 is aimed at newer phones, tablets, and computers that have removed the traditional 3.5 mm headphone jack leaving only a USB-C™ connector for charging, data and audio.

Specifications

- Supports USB-C devices
- Durable, tangle-free cable
- Tactile music and phone controls
- Built-in microphone
- Sweat and splash resistant
- Includes three ear tip sizes for maximum comfort
- Integrated cable management when using a single earbud
- Easily identifiable L and R markings on each earbud

Compatibility

The Belkin G3H0002 is designed to work with phones, tablets, and computers that utilize a USB-C port. Some devices may not support all features with USB-C headphones. It has been tested for full compatibility with the following devices:

- Google™ Pixel™ 3
- Google Pixel 3 XL
