

Network Connector Set | RJ45 Male + Strain Relief Boot - For Solid Cat 5 UTP Cables | 10 pieces | Grey

General information

Mount this shielded network connector on a network cable to create your own custom-size network cable. The strain-relief boot protects the cable against fractures caused by bending.

Features

- Shielded connectors for signal protection against RFI interference
- Specifically made for CAT5 network cables
- Including strain-relief boot for protection against cable fractures
