

## PC Power Supply ATX 450 W Silent Fan 12 cm

### General information

This 450 watt computer supply is equipped with a silent 12 cm fan. Its noise level is less than 24 dB (30 dB is comparable to a quiet bedroom in a city).

This 450 watt computer supply is perfectly compatible with AMD and Pentium systems and is suitable for almost every PC. The power supply has both a CE approval and a passive PFC. It is equipped with a 24/20 pin main board power connection. Also included are two S-ATA power connectors and a 6 pin PCI-Express connection.

**PAY ATTENTION:** Feeding only works if connected to the motherboard or PSU tester, which is the standard security procedure.

### Features

- 12cm silent temperature controlled dual fan for optimized air flow
- ATX 2.2 power supply standard
- Equipped with 1x PCI-E, 1x floppy drive, 4x Molex and 2x SATA connectors

### Specifications
