

11" / 279 mm Heavy-Duty Titanium Coated Single Ring Tradesman Shears

Product Details

Catalog No.	CW11TM
UPC	037103333292
Set	No
Blade Length	4 in, 10.2 cm
Packaging	Carded
Weight (Catalog)	0.800 lb, 320 g

Features

- Heavy-duty blades feature titanium coated premium grade stainless steel and are precision engineered for knife-like cutting edges
- Spring-loaded design automatically opens when latch is disengaged for reduced hand fatigue
- Touch point ergonomics optimize hand and finger contact points in handles to maximize fit, control, and user ergonomics
- Full metal core extends through the handle for maximum strength and increased durability
- Serrated bottom blade grips material as it is being cut for increased cutting control and cleaner cuts
- Control channel accommodates index finger for increased control and cutting stability
- Quick release ergonomic latch provides consistent easy operation and secures the tool in the closed and locked position for safe storage

Overview

Crescent Wiss® Spring-Loaded Tradesman Shears feature premium steel blades that extend through the handles for twice the strength and ten times the cutting power of standard shears. Their titanium blade coating is three times harder than steel for extra durability and longer edge life. A serrated bottom blade grips material for better control and cleaner cuts, while spring-loaded design and optimized handle contact points improve comfort and reduce fatigue. A quick-release ergonomic latch that locks the tool closed for storage and soft-grip TPR handles are added safety and comfort features that make Crescent Wiss® Spring-Loaded Tradesman Shears best in class performers.
