

# BM1R

## Timers

### Syrline

#### 17.5 mm - 1 Relay 16A

- › Multi-function or mono-function
- › Multi-range (12 function)
- › Multi-voltage 12 →240 V AC/DC
- › LED status indicator (relay version)
- › Possibility of external load connection in parallel to the control input
- › 3-wire PNP sensor compatible

**SYR-LINE**

| Specifications  |  |                    |                |                 |                |           |
|---|--|--------------------|----------------|-----------------|----------------|-----------|
| Functions   | Delay  | Output             | Nominal rating | Connections     | Supply voltage | Code      |
| A - Ac - At - B - C - D - Di - H - Ht - N - TL - Tt             | 0,5 s →10 days   | 1 changeover relay | 16 A           | Screw terminals | 12 →240 V ~/∞  | BM1R16MV1 |
| Output relay  |  |                    |                |                 |                |           |
| Contact arrangement   | 1 CO (SPDT) (ChangeOver -Simple Pole Double Throw-)                                      |                    |                |                 |                |           |
| Maximum switching voltage                                       | 250 VAC/ 16 A resistive / 250 VDC / 0.3 A resistive                                      |                    |                |                 |                |           |
| Switching current rate (resistive)                              | NO / NC: 16 A 250 V AC / 16 A 30 VDC @ 25°C<br>NO / NC: 8 A 250 V AC / 8 A 30 VDC @ 60°C |                    |                |                 |                |           |
| Minimum switching contact                                       | 10 mA / 5 VDC  |                    |                |                 |                |           |
| Maximum switching power (resistive)                             | 4000 VA / 90 W @ 25°C  |                    |                |                 |                |           |
| Electrical life   | 30x10 <sup>3</sup> cycles (NO) at 250 VAC/ 16 A resistive                                |                    |                |                 |                |           |
| Maximum rate (at max switching power)                           | 360 cycles /hour   |                    |                |                 |                |           |
| Mechanical life   | 30 x 10 <sup>6</sup> cycles  |                    |                |                 |                |           |
| Rated impulse voltage   | 5 kV (1.2/50µs)  |                    |                |                 |                |           |
| Dielectric strength between coil / contacts                     | IEC 60664-1: 5 kV /1 min / 1 mA / 50 Hz  |                    |                |                 |                |           |
| Dielectric strength between open contacts                       | 1 kV /1 min / 1 mA / 50 Hz   |                    |                |                 |                |           |
| Timing  |  |                    |                |                 |                |           |
| Timing ranges (7 ranges)  | 0.5→10s, 0.05→1min, 0.5→10min, 0.05→1h, 0.5→10h, 0.05→1day, 0.5→10days                   |                    |                |                 |                |           |
| Minimum pulse duration typically (relay version)                | IEC 1812-1: 30 ms / 100 ms with load   |                    |                |                 |                |           |
| Maximum reset time by de-energisation typically (relay version) | IEC 1812-1: 120 ms   |                    |                |                 |                |           |
| Repeatability   | IEC 1812-1: ≤ ± 0,5%   |                    |                |                 |                |           |
| Repetition accuracy with constant parameters                    | IEC 1812-1: ≤ ± 10%  |                    |                |                 |                |           |
| Drift Temperature   | ≤ ± 0.05% / °C   |                    |                |                 |                |           |
| Voltage-dependent drift   | ≤ ± 0.2% / V   |                    |                |                 |                |           |
| Supply  |  |                    |                |                 |                |           |
| Multi-voltage power supply                                      | 12→240 V ~/∞   |                    |                |                 |                |           |
| Operating range   | 15%, +10%  |                    |                |                 |                |           |
| Operating frequency (Hz)  | 50 / 60 Hz ± 5%  |                    |                |                 |                |           |

| Supply   |  |
|--|--|
| Galvanic isolation   | No   |
| Max. absorbed power  | Approx. 3 VA (V $\sim$ ) 1.5 W (V $\overline{\sim}$ )  |
| Immunity from micro power cuts   | 10 ms  |
| General characteristics  |  |
| Insulation voltage, IEC 60664-1  | 300 V  |
| Installation category (acc. to IEC/EN 60664-1)   | Overvoltage category III; pollution degree 2   |
| Impulse voltage CEI/EN 60664-1   | 4 kV (1,2 / 50 $\mu$ s)  |
| Clearance / Creepage distances   | IEC 60664-1: 3 mm / 3.2 mm   |
| Breakdown voltage  | EN-61812-1: 2,5 kV / 1 min / 1 mA / 50 Hz  |
| Insulation resistance  | NFC 93050: > 500 M $\Omega$ / 250 V $\overline{\sim}$ / 1min   |
| Status indication  | Un: green LED blinks when count, continuous ON when supplied<br>R: yellow LED continuous ON when the relay is ON   |
| Casing   | DIN 43880: 17,5 mm   |
| Fixing: Symmetrical DIN rail   | EN 50022: 35 mm  |
| Mounting position  | All positions  |
| Housing material   | Enclosure plastic type UL94 - V0   |
| Protection (IEC/EN 60529)  | Housing: IP40 / Terminal block: IP20   |
| Terminal capacity Single-wire without ferrule  | IEC 60947-1<br>1 x 0.5 $\rightarrow$ 3.3 mm <sup>2</sup> (AWG 20 $\rightarrow$ AWG 12)<br>2 x 0.5 $\rightarrow$ 1.5 mm <sup>2</sup> (AWG 20 $\rightarrow$ AWG 16)  |
| Max. tightening torque (Nm)  | IEC 60947-1: 0,5 N.m / 4,4 lbf.in  |
| Operating temperature range (°C)   | IEC 60068-2: -20 °C $\rightarrow$ +60 °C   |
| Storage temperature range (°C)   | IEC 60068-2: -40 °C $\rightarrow$ +70 °C   |
| Relative humidity no condensation acc. to IEC/EN 60068-2-30                                  | 93 % without condensation  |
| Vibration resistance according to IEC/EN 60068-2-6   | $\pm$ 0.15 mm from 10 Hz $\rightarrow$ 60 Hz 2g from 60 Hz $\rightarrow$ 150 Hz  |
| Impact resistance  | IEC 60068-2-27<br>15gn - 11ms; 3 x 6 axis (output OFF)<br>5gn - 11ms; 3 x 6 axis (Output ON)   |
| Drop to concrete floor   | IEC 60068-2-32<br>High: 0.75m  |
| Weight: casing 17,5 mm   | 70 g<br>80 g with packaging  |
| Directives   | 2014/30/EU: EMC<br>2014/35/EU: low voltage   |
