

BU-00287

(Insulated Alligator Test Lead Set)

- The BU-00287 is a set of ten (10) individual test leads with insulated alligator clips on each end. These leads are used to test electrical components or circuits. Constructed with 22 (19/34) AWG wire jacketed in flexible PVC with color-matching insulators.
- Utilizes Mueller's BU-53 alligator clips.
- Material: Clip Nickel-plated steel
 Insulator Flexible PVC
- Overall length of each lead 21.5" (0.55m)
- Ratings:
 - Voltage: Hands-free testing to 300V
 - Current: 7 Amps
- Color: 2 each of (Black, Red, Yellow, Green, White)
- RoHS compliant
