

Evluent 4

The Evluent4 Wired vertical mouse (left and right) is a patented ergonomic mouse which will support you to work healthy, comfortable, and productive.

This wired mouse is suitable for right- and left-handers

The Evluent4 has great functions like six programmable buttons, a directly reachable DPI-button to adjust the pointer speed into one of the four different values (800-1300-1800-2600) that suits you best, illuminated Evluent logo turns off when the system is in power saving mode, and a lip which supports the little finger. Start working with the Evluent4 and support your hand in an upright neutral posture that avoids forearm twisting. With the Evluent4 Right Wired you will experience comfortable working at the computer.

Ergonomic background

Prolonged use of a regular mouse can lead to pain and discomfort in the shoulders, forearms, and hands (Chang et al., 2007 & Andersen et al., 2008). The handshake position of vertical mice keeps the wrist from bending as much to the side while the forearm also turns inward to a lesser degree (Schmid, et al., 2015). This means that muscle activity in the forearm is less than it would be when using a conventional mouse (Quemelo & Vieira, 2013). Research has shown that the use of a vertical joystick mouse ensures a faster recovery from forearm, wrist and hand complaints (Aarås, et al., 2001). And therefore, vertical mice compared to standard mice lead to a healthier and more comfortable way of working.
