Attached to help

The IB-HUB1703-U3 is specially adapted to compete in industrial environments. The high-quality aluminium housing can withstand a lot and ensures effective heat dissipation. Thanks to the mounting brackets, it can be mounted and used almost anywhere. In addition to the two highly efficient QC 3.0 charging ports, one fast charge port (BC 1.2) and four USB 3.0 ports are integrated.

7 port USB 3.0 Hub with 3 charge ports

Charging

The QC 3.0 charging port with up to 12 V offers an extremely fast and convenient way to charge compatible smartphones, tablets, digital cameras and power banks. The fast charge port (5 V / 2.4 A) complies with the new battery charging specification (BC 1.2) and completes the portfolio of ports. Thanks to the power supply unit, this is also possible without a connected host computer. The hub can be switched off via button.

Sevenfold

Seven USB 3.0 ports in one sweep. If all USB 3.0 ports are busy again, the phone needs to be charged and important data must be copied spontaneously back and forth from external storage devices, this candidate can help. The IB-HUB1703-QC3 is always in the place you want it to be.

Mounted

Every working environment is different. The IB-HUB1703-QC3 faces this challenge and offers all features to compete in both private and industrial environments. Thanks to the table or wall mounting bracket, the stable aluminium housing can be installed stably.
