Adapter for USB 3.1 (Gen 2), Type-A plug to Type-C™ socket

The new generation

It is called USB Type-C™ and is the future standard. The connector is twist-proof, eliminates the need for tedious plugging in, and Type-C™ connectors are compatible with USB 3.1 (Gen 2) and all older versions.

Little helper

It doesn't always depend on the size, because this adapter fulfils its purpose perfectly. Small and light, it can be quickly and easily connected to a PC, laptop or tablet and is ready for immediate use.

A workhorse

USB Type-A is widely used and can be used in many different areas and it is understandable if you want to continue using these devices. With the IB-CB015 you can keep the existing USB cabling and simply connect the adapter.
