

1U Open Brush Strip Panel

1U Open Brush Strip Panel (MBrushBK)

The brush strip panels enable the installer to organise the cabinet while minimising disruption of airflow. Unlike letterbox-style brush panels, our single sided panels offer the advantage that one item can be used for both a small or (by using 2 pieces, one inverted) a large opening.

Features

- 1U brush strip panel (half open top)
- Gives a tidy appearance to the opening
- Helps maintain rack air-cooling efficiency
- Patch cords and system cables can be easily accessed at the front of the rack
- If required, two panels can be mounted adjacent to each other to provide a larger letterbox-style opening

Specifications

- Weight: approx. 220g
- Dimensions: 482.6 x 8.6 x 44.5mm
- Opening: approx. 388 x 32.3mm
- Material: steel approx. 1.5mm thick
- Finish: powder painted black

EAN Number: 5055386500564

Commodity Code: 85177090
