

WiFi Smart IP Camera | HD 720p

General information

An essential addition to any smart home system, this Nedis® Smart Home IP Camera connects directly with your Wi-Fi network – no additional hub required – to be triggered by any motion and sound in the room.

Smart IP Camera

Home automation just got simpler. This easy to use camera can be easily connected to your existing Wi-Fi network to monitor rooms for any sound or motion.

It records in HD resolution (1280x720 pixels) for complete clarity of the images captured. In addition, the camera is just as powerful at night: with its night vision mode offering a range of 5.0 m.

The camera supports microSD cards of up to 128 GB (not included) to offer plenty of footage storage and its flexible, bendy design means it can be placed anywhere within your room to record a viewing angle of 110° thanks to its 1/4" CMOS sensor.

A 3M adhesive pad is included for fixing to the walls of your room

About Nedis® SmartLife

Discover a wide and ever-expanding range of products – such as bulbs, switches, sockets, sensors, and cameras – that can all be controlled through an easy-to-use and intuitive app.

Whether you're looking for a single smart bulb or camera, or you want to automate your entire house, discover how accessible smart technology is today.

Features

- Smart IP Camera – responds automatically to record any motion or sound in your room
- HD resolution – for crystal-clear footage capture
- Easy to connect directly into your Wi-Fi network – no separate hub required
