

PRF Stainless Steel Polish

DISINFECTANT STEEL POLISH SPRAY

Technical information

Chemical substance:

Ethanol, 1-methoxypropan-2-ol

CAS: 64-17-5, 107-98-2

Propellant: Propane, Butane

Appearance: Foam

Applications

PRF Stainless Steel Polish is a multi effect spray that cleans and polishes all metal surfaces. In addition to cleansing effect, Stainless Steel Polish includes active substances that destroy bacteria and viruses. It is suitable for food contact surfaces but requires rinsing after use.

Directions

Shake before use. Spray evenly from a distance of 20-30 cm. Let sit on the surface for 30-45 seconds and wipe with a dry cloth.

Always use a clean and soft cloth to avoid scratching. Works upside down.

Shelf life is 36 months from the date of manufacture.

Ecological information

Recyclable aluminium canister. Ozone-friendly propellant.

Contains aliphatic hydrocarbons, anionic surfactants and disinfectants.

Product information

Product code: PISSPO52

Net volume: 400ml

Package: Aluminium aerosol canister

Sales unit: Carton/12 cans

UFI: W1E1-Y0S5-0000-DQDN

UN number: 1950

Transport class: 2.1
