

Thermocouple Stainless Steel Air Probe Type K

Features

- 316 Stainless Steel Air Probe with a vented sheath for general air temperature measurement
- Made from high-grade stainless steel, the Type K Thermocouple Air Probe offers excellent corrosion resistance and durability, making it suitable for harsh environments and industrial applications
- The Type K Thermocouple Stainless Steel Air Probe is designed for rapid temperature sensing and response

Specification

Sensor Type	K
Probe Tip Type	Vented Air Probe Tip
Probe Diameter	4 mm
Probe Length	110 mm
Cable Length	2 m
Cable Type	Polyurethane
Cable Termination	Mini Plug
Maximum Temperature Measurement	400 °C

Art. Nr.

RND 410-00316
