

Stainless Steel Penetration Probe Type K

Features

- 316 Stainless Steel Penetration Probe with a pointed tip for liquid and semi-solid temperature measurement
- Comprising of a handle, 2 m coiled cable and a mini plug
- This versatility makes it invaluable for applications such as food processing, quality control, and industrial processes

Specification

Sensor Type	K
Probe Tip Type	Pointed Tip
Probe Diameter	3.3 mm
Probe Length	300 mm
Cable Length	2 m
Cable Material	Polyurethane
Cable Termination	Mini Plug
Maximum Temperature Measurement	400 °C

Art. Nr.

RND 410-00328
