# MCX JACK PCB CONNECTOR

#### **Features**

- Compact form factor makes it ideal for space-constrained applications where a low-profile RF connector solution is needed
- The MCX jack PCB connector utilizes surface-mount technology (SMT) for easy attachment to PCBs during the manufacturing process
- MCX jack PCB connectors find applications across a range of RF systems, such as wireless communication devices, GPS modules, RF test equipment, and more

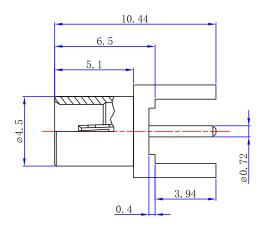

#### **Specification**

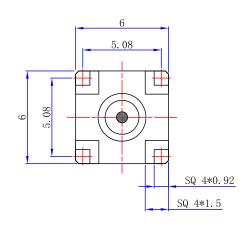

Impedance	75 Ohm	
Frequency Range	0 6 GHz	
VSVR	1.3 max	
Working Voltage	500V RMS @ Sea Level	
Insulation Resistance	5 GOhm min.	
Temperature Range	-40 125 °C	

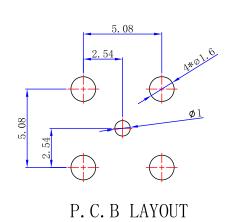

## **Material Specification**

Body	Brass, Gold Plated
Insulator	PTFE
Center Pin	Brass, Gold Plated

### **Drawing**

Art. Nr. RND 205-01521
