

# Earth Bonding Plug

## Description

ESD / Earth bonding plug designed for UK standard mains outlets. This allows users to easily ground themselves using an existing electrical ground.

## Features

- Incorporates 2 shrouded banana sockets and a 10mm male stud for connection grounding wire
- Neutral and live voltage pins are plastic and therefore safe
- Earth pin is metal
- 1M  $\Omega$  resistor for added safety
- This plug is designed to fit UK standard mains plug outlets
