

# Ferrite Disc Magnet

## Features

- Good resistance to demagnetization
- Excellent corrosion resistance, very hard and brittle
- No surface treatments are required
- Can be used in motors, magnetic couplings, for sensing, loudspeakers, holding-magnet systems, crafts, magnetic therapy, novelties, and toys

## Specification

Material	Ferrite Magnet		
Magnet Type	Disc		
Grade	Y30		
Magnetized Direction	Through thickness		
<b>Part No.</b>	<b>Diameter</b>	<b>Thickness</b>	<b>Net weight (g/pcs)</b>
RND 610-00888	10 mm	10 mm	3.7
RND 610-00889	12 mm	6 mm	3.2
