

Telephone Cable

Features

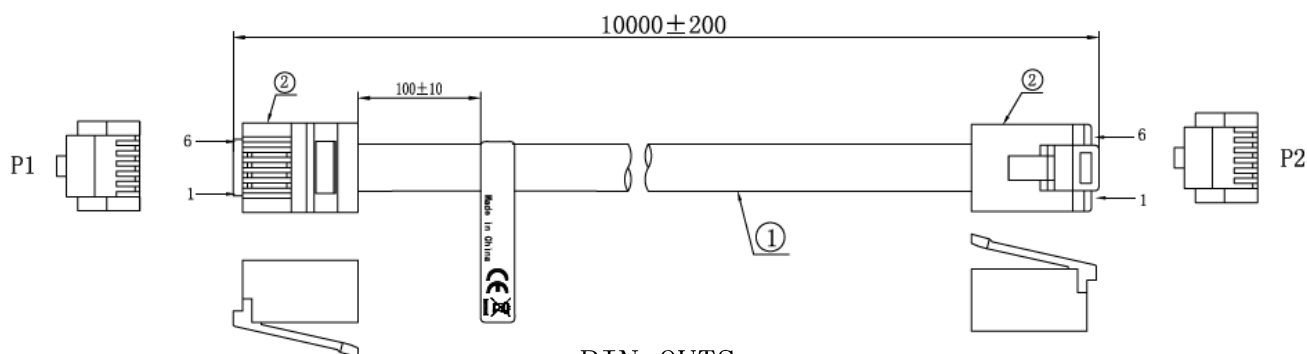

- Clear and precise communication
- RJ11 cable is most commonly used in telecommunications, for voice application
- RoHS and REACH compliant
- Commonly used for connecting a telephone with the wall socket and handset to the telephone

Specification

Connection A	RJ11 6P4C Plug
Connection B	RJ11 6P4C Plug
Cable Design	Flat
Cable Length	10 m
Conductor Material	Bare Copper
Insulation Diameter	0.9 mm
Insulation Colours	Black, Green, Red, Yellow
Jacket Colour	Black
Jacket Material	PVC
Jacket Diameter	2.4 x 4.8 mm
Insulation Resistance	20 MOhm
Conductor Resistance	10 Ohm max.
