RS PRO 5µm Water Filter Cartridge

RS Stock No.: 728-2703

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

Made from a lightweight polypropylene material that's durable and functional at temperatures up to +82°C, this cartridge can remove dirt and sediment particles as small as 5 microns in size. It has an internal diameter of 4 inches and fits standard 10-inch filter housings connected to the mains. The high-efficiency filtration properties of this cartridge mean your water will be cleaner and clearer.

Intended as a replacement cartridge to be used with the RS PRO CalMax filter housing [738-2700](#).

General Specifications

Filtration Level	5µm
Material	Polypropylene
Maximum Operating Temperature	82°C
Application	Replacement Sediment Cartridge
For Use With	RS PRO CalMax filter housing 738-2700.

Mechanical Specifications

Internal Diameter	4in
Length	10in

Installation Instructions

Shut off the water supply.

Depress the touch tap and red button on the housing to release water pressure in the flexible pipe.

Remove used cartridge by unscrewing the housing bowl with the wrench supplied. Use of a container may be necessary to catch any excess water.

Dispose of old cartridge.

Place new cartridge in housing bowl and screw back onto the head ensuring that the 'O' ring is seated correctly.

Slowly turn on the mains water supply.

Check for leaks.

Depress the lever on the tap to remove any air locks and run water to remove any discolouration from the cartridge.

The system is now ready for use
