## Q Type 'Safeloc' Claw Couplings

### Zinc-plated Malleable Iron

Q Type 'Safeloc' Claw Couplings are suitable for medium to high pressure compressed air applications, incorporate a safety 'pin lock' feature that prevents accidental disconnection, and are fully interchangeable with standard European claw couplings. The couplings are manufactured from malleable iron, with a Zinc-plated finish.

#### Technical Features

- Safety pin locking feature
- Security collar on hose stem for use with HP clamps to prevent hose 'blow off'
- Suitable for working pressures (with air) up to 10 bar
