The TCI 500 is a 500 Watt forced air cooled AC/DC enclosed power supply series with a 4250 VAC reinforced isolation system. Traco Power's new TCI line focuses on maximizing the proficiency of conduction cooled systems as it offers superior temperature behavior when mounted on a metal chassis or baseplate. Excellent efficiency of up to 92% allows the TCI 500 series to operate from  $-30$  to  $+70^{\circ}\text{C}$  with load derating. They also meet OVC III requirements and can operate at up to 5000 m altitude. Active power factor correction, EMC characteristics dedicated for applications in industrial/automation and test & measurement fields and high reliability make the new TCI line an ideal solution for any demanding industrial application.
