

Part Number TRF1002 - Aristotle RFA-02-5-F7H1 5 dBi 2.4 GHz External Antenna

This external antenna is manufactured by Aristotle Enterprises, and is suitable for 2.4 GHz Wi-Fi (IEEE 802.11), ZigBee, MiWi, and IEEE 802.15.4. It includes a right angle swivel connection that fits into a panel sleeve. Two panel sleeves are included, for 1mm and 1.5 mm panel thickness. The 5 dBi antenna is 174 mm long, as measured from the swivel base, and includes a 150 mm long cable with I-PEX (u.FL) connector on the end. The MRF24WB0MB module has been FCC and IC certified for use with this antenna.
