## Overview

Whilst blue light is all around us, too much screen time can lead to increased exposure of blue light, which disrupts the natural stimulation to our brain from diurnal cycle, leading to potential of 'digital eye strain' short term and sleep deprivation led fatigue long term. Help protect yourself and your screen with the Targus® Blue Light Filter Screen Protector for 24" Widescreen Monitors.

Designed to reduce 45% of harmful blue light while safeguarding your device screen from scratches and fingerprints, the protector also helps reduce glare whether you're working under bright lights or outdoors. Viewing clarity, overall brightness, and touch-sensitivity are not affected.

Ideal for your work-from-home setup or any space where privacy is already secure, this protector offers a 180° viewing angle for full visibility from the left, right, top, or bottom. Highly portable and easy to use, it can be attached in four different ways by using the included reusable adhesive strips, bezel tabs, slide tab guides, or handy flip-over hinge.
