

# Hello World Component Kit

[voltera.io/store/consumables/hello-world-component-kit](https://voltera.io/store/consumables/hello-world-component-kit)

The Hello World circuit is the first circuit you print with your V-One. Have more than one person using your V-One? Then you might want more Hello World kits!

The Hello World kit contains:

- 6 x Green LEDs
- 3 x 47k Resistors
- 3 x 180R Resistors
- 3 x 100k Resistors
- 3 x 4.7UF Capacitor
- 1 x 555 timer
- 1 x 9V battery
