| Rated data                 |                       | General tech. specifications |  |  |
|----------------------------|-----------------------|------------------------------|--|--|
| Input                      |                       | Power factor λ               | 0.72   |  |
| Number of phases           | 3 AC                  | Offset factor cos φ          | 0.95   |  |
| Line voltage               | 380 480 V -15 % +10 % | Efficiency η                 | 0.98   |  |
| Line frequency             | 47 63 Hz              | Ambient conditions           |  |  |
| Output                     |                       | Cooling                      | convection cooling                             |  |
| Number of phases           | 3 AC                  | Installation altitude        | 1000 m (3281 ft)                               |  |
| Rated voltage              | 400 V                 | Ambient temperature          |  |  |
| Rated power (HO)           | 0.55 kW / 0.75 hp     | Operation                    | -10 60 °C (14 140 °F)                          |  |
| Rated power (LO)           | 0.55 kW / 0.75 hp     | Storage                      | -40 70 °C (-40 158 °F)                         |  |
| Rated current (HO)         | 1.70 A                | Relative humidity            |  |  |
| Rated current (LO)         | 1.70 A                | Max. operation               | 95 %   |  |
| Rated current (HO) at 480V | 1.70 A                | Communication                |  |  |
| Rated current (LO) at 480V | 1.70 A                | Communication                | USS, Modbus RTU                                |  |
| Pulse frequency            | 2 kHz                 |                              | <u>,                                      </u> |  |
| Output frequency           | 0 550 Hz              | Standards                    |  |  |
|                            | 0 330 HZ              | Compliance with standards    | CE, cULus, C-Tick (RCM), KC                    |  |
|                            |                       | CE marking                   | EN 61800-5-1 /EN 60204-1 and EN 61800-3        |  |

## Overload capability

Low Overload (LO)

110 % rated output current for 60 s, cycle time 300 s

High Overload (HO)

150 % rated output current for 60 s, cycle time 300 s
