## CONFIX Conduit Entry System

### Benefits ...

#### 1. Fast and easy assembly

The liftable cover of the bulkhead fitting CONFIX FWS is tightly fixed by a hinge to the mounting box. The system is therefore very easy to mount and equip.

#### 2. Easy to maintain

The split version of the corrugated conduits CONFIX WST offers the possibility of routing standard or pre-terminated cables in harsh environments.

#### 3. Flexible

The corrugated conduits CONFIX WS can be used for various applications, depending on the material. UV resistant polyamide conduits for high mechanical requirements (indoor and outdoor use), polypropylene conduits with high resistance against acids / alkalis.

### At a glance ...

The 90° angled conduit fitting CONFIX FWS is perfect for installation of parallel corrugated cable protection conduits, e.g. in machines, control panels or control cabinets. The liftable cover is tightly fixed by a hinge to the mounting box. Therefore, the system is very easy to handle.

Corrugated conduits CONFIX WS for cable routing are used where cables have to be protected from mechanical damage or certain weather conditions.

In addition, icotek offers split corrugated conduits CONFIX WST for routing pre-terminated cables and corresponding conduit clips CONFIX SH.

### CONFIX FWS Assembly

Installation of CONFIX FWS is quite easy:

1. Fix FWS with screws
2. Insert conduit with cables
3. Lock FWS with screws
